

EAGLE SOARS FROM MOON; ASTRONAUTS TAKE EPIC WALK

Luna Makes Soft Landing

JODRELL BANK, Eng. (AP) — Russia landed Luna 15 on the moon's surface today, 500 miles from where America's Apollo astronauts were preparing to take off on their journey back to earth, Jodrell Bank Observatory reported.

Signals picked up at the giant radio-telescope here indicated that after four days of moon orbit the unmanned probe landed on the moon's Sea of Crises.

Jodrell Observatory, headed by 55-year-old Sir Bernard Lovell, stood by for any sign that Luna itself might be preparing to return to earth.

Prof. John G. Davies, Lovell's aide, said at 12:05 p.m. EDT: "Luna has landed."

The last signals received from Luna were "appropriate to a soft landing," he added.

Unofficial sources in Moscow had predicted when Luna 15 took off July 13 that it would attempt a remote-controlled lunar landing to retrieve a sample of moon soil—a task already performed by the American astronauts.

But in the absence of signals, there was no immediate indication that Luna 15 was operating "live" on the moon's surface.

Asked about the possibility that the probe could still lift off with a lunar sample for a round trip to earth ahead of Apollo 11, Davies said: "It is now possible that the Russian probe will be back faster than the Americans. There may be savings in time with an unmanned craft with no docking procedures."

Truce Broken By El Salvador Says Honduras

TEGUCIGALPA, Honduras (AP) — Honduras charged that El Salvador broke the cease-fire in their undeclared war with the capture Sunday of five more towns or villages.

El Salvador replied with a charge that Honduran troops opened fire with machine guns on President Fidel Sanchez Hernandez of El Salvador while he was inspecting Salvadoran troops inside Honduras.

The cease-fire, which supposedly went into effect at 10 p.m. Friday, calls for the withdrawal of all Salvadoran troops from Honduras by 10 o'clock tonight. But El Salvador said it would not withdraw until it received "satisfactory" guarantees for the safety of more than 275,000 Salvadorans living in Honduras and their property.

Guillermo Sevilla Sacasa, Nicaraguan chairman of the peace commission of the Organization of American States, said that if El Salvador does not pull its troops back, it will be "considered an aggressor and subject to the sanctions specified in the Rio de Janeiro Charter."

According to Honduran announcements, the Salvadorans have now captured a sizable piece of western Honduras since they invaded the neighboring country last Monday. The Salvadorans said they went to war because the Hondurans were persecuting the Salvadorans in Honduras and because Honduras was preparing to invade El Salvador.

TV Schedule For Apollo 11

NEW YORK (AP) — Scheduled Apollo coverage on the three major television networks (all times EDT):

Monday CBS and NBC, conclusion of 31 hours of continuous coverage through 6 p.m.; ABC, conclusion of 30 hours continuous coverage through 6 p.m., 7:30-8:30 special.

Tuesday: ABC, 9:02-9:17 p.m., live pictures from capsule; 10:58 p.m., progress report; CBS, 9-9:20 p.m., live transmission, progress reports through day; NBC, 12:50-1:15 a.m., rocket firing for return to earth.

BULLETIN

WASHINGTON (AP)—The United States is easing trade and travel restrictions toward Communist China, effective Wednesday, the State Department announced today.

Change Prayer

JERUSALEM — (AP) — The American landing on the moon resulted today in the revision of an ancient Jewish prayer.

The prayer asked God to preserve the Jew from harm "just as the moon is untouchable by man." Gen. Schlomo Goren, the Israeli army's chief chaplain, said it had been changed to "just as the moon is not touched by man."

Today's Chuckle

In one respect the old-fashioned kitchens were better than the modern ones—they had old-fashioned housewives in them.

Fierce Battle Rages Along Suez Canal

By The Associated Press
Ground and air battles raged along the Suez Canal Sunday in the Middle East's fiercest fighting since the 1967 Arab-Israeli war.

The action began when Israeli commandos attacked Green Island, an Egyptian fortress in the Gulf of Suez, before dawn. Israeli jets followed up 12 hours later, hitting Egyptian positions across the canal for the first time since the 1967 war.

Egyptian planes then made a series of raids on Israeli targets in the occupied Sinai desert.

The Egyptians claimed they shot down 19 Israeli jets, one during the Green Island raid and the rest in dogfights along the canal. The Israelis admitted losing two Mirage fighters, but said they shot down five Egyptian planes.

Artillery duels raged for more than six hours up and down the 103-mile waterway, U.N. observ-

ers pleaded twice for a cease-fire, but the ground and air fighting continued.

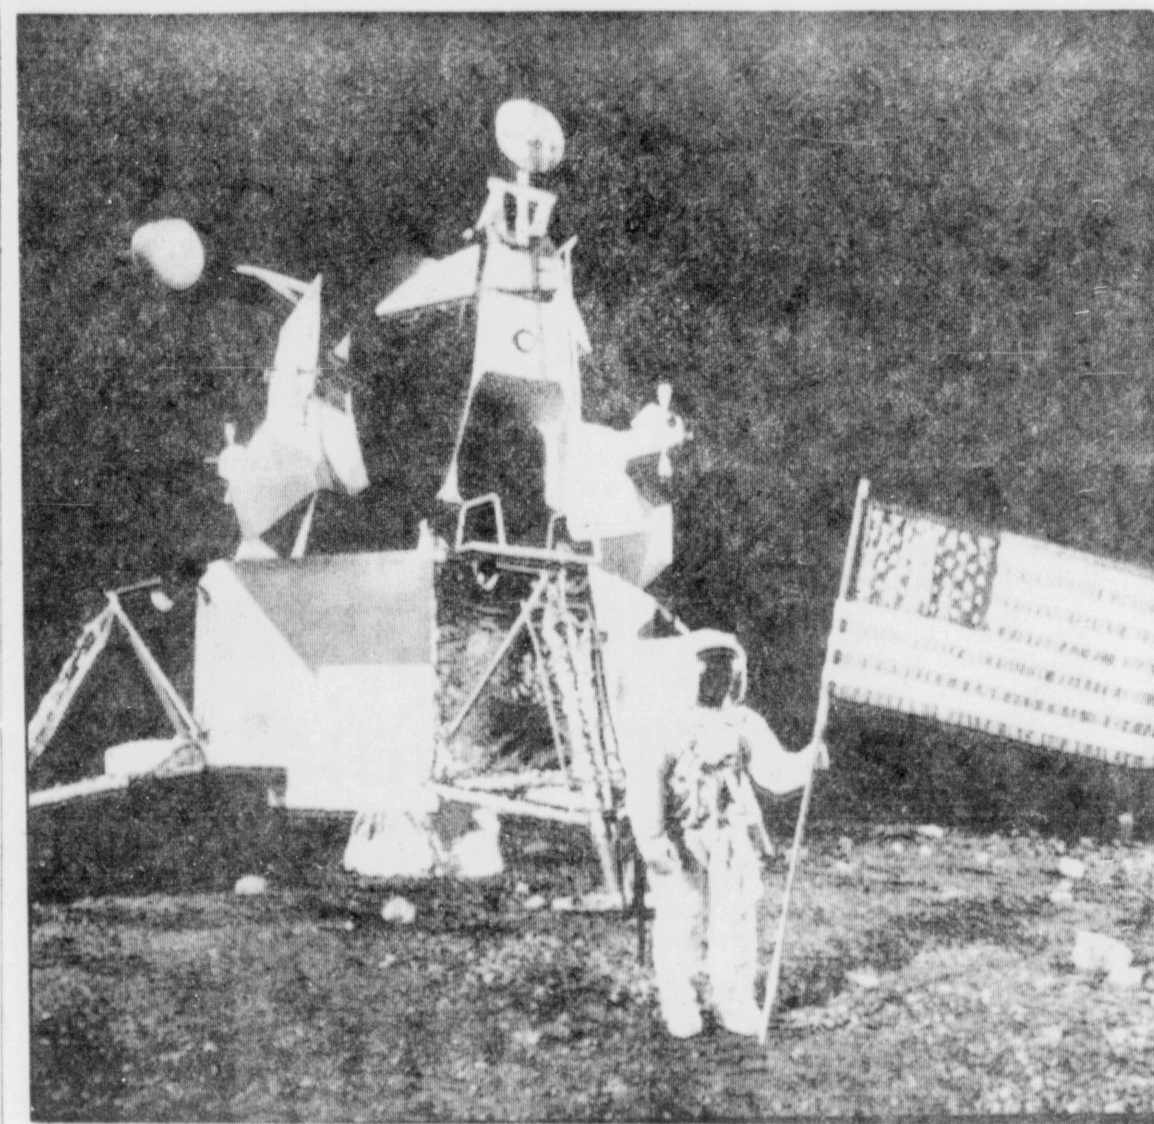

Escalation
Israel said three of its soldiers were killed and three wounded by artillery fire. The Israelis reported six commandos killed and nine wounded in the attack on Green Island; Egypt claimed 30 Israelis killed.

An Egyptian spokesman said today that his government was "seriously studying the escalation of fighting" and "the Israeli aim behind such escalation."

A senior Israeli officer said, however, that the raids were carried out in the hope of preventing further escalation.

"We have not used air power in this area in the way we have today," he said. "The express purpose of doing so is to try to stop a deteriorating situation along the canal."

"We plastered their artillery positions and mortar positions and tank positions," the officer

Begins Orbital Chase To Link With Columbia

SPACE CENTER, Houston — (AP) — Neil A. Armstrong and Edwin E. Aldrin Jr. blasted off safely from the moon and into lunar orbit today, beginning the complex maneuvers to link up with their mother ship. They left behind their footprints in the lunar dust and in the history of man.

Their liftoff began 69 seconds after the command ship, with Michael Collins its lone passenger, passed 69 miles above Tranquility Base. Seven minutes later, they entered orbit and a 3½ hour chase began.

If all went well, the two ships would link up at 5:32 p.m. EDT, and head for home at 12:57 a.m. Tuesday.

Their thrust lander, which settled them onto the surface Sunday for a 21½ hour stay, served them, too, at liftoff. They left behind the spindly-legged lower stage, their launching platform, as a permanent memento of July 20, 1969—the day man landed on the moon.

Another First

It was the first time a rocket had lifted anything from the moon.

Mission control awakened the moonmen shortly after 11 a.m. following a six-hour rest period. Instruments which monitored Armstrong during the night indicated he slept fitfully. There is only one set of biomedical instruments in the cabin so Aldrin was not monitored.

Sleeping in the cramped quarters of the LM is difficult and Aldrin reported: "Neil has been lying on the engine cover and I curled up on the floor."

Checking of systems and switch settings for the critical liftoff was the No. 1 priority after wake-up.

A successful liftoff would shoot them into lunar orbit to chase down Michael Collins, orbiting some 65 miles overhead in the Apollo 11 command ship.

Once linked up, they plan to fire themselves back toward earth early Tuesday, ending a space odyssey in which they etched their names beside those of history's great explorers, Columbus, Balboa, Magellan, da Gama and Byrd.

Millions Watch

Through the magic of television, an estimated 500 million people around the world had a ringside seat to man's greatest adventure.

It was unforgettable. Armstrong climbed through the LM hatch and started backing down a nine-rung ladder. On the second rung from the bottom, he opened a compartment, exposing a television camera.

The picture was black and white and somewhat jerky, but it recorded history.

Among scientists, there was elation that the crew had landed in an area with a variety of rocks, a treasure that held at least the hope of a rich payoff in the search to learn more about moon and earth.

As Armstrong planted his size 9½ left boot on the powdery surface at 10:56 p.m. Sunday, he spoke words that will be remembered for all time: "That's one small step for man, a giant leap for mankind."

Beautiful

The camera trained on Aldrin as he stepped on the far shore 20 minutes later and exclaimed: "Beautiful! Beautiful! Magnificent desolation."

There were other memorable utterances during the day of high adventure.

There were Armstrong's words when Eagle separated from the command ship to start the dangerous descent: "The Eagle is flying."

There were Armstrong's—and man's—first words from the moon's surface after touchdown at 4:18 p.m.: "Houston . . . Tranquility base here. The Eagle has landed."

Or when Aldrin, a deeply religious man, relayed this message to the world shortly after the landing: "This is the LM pilot speaking."

No Negligence: Police Chief

Kennedy Charged In Fatal Accident

EDGARTOWN, Mass. (AP) — Police today filed a formal complaint charging Sen. Edward M. Kennedy with leaving the scene of an accident.

The complaint stems from a weekend wreck on Chappaquiddick Island, adjacent to Martha's Vineyard on which this small resort town is located. A young woman was killed and Kennedy injured, though apparently not seriously.

The complaint was filed by Police Chief Dominic J. Arena with the District Court Clerk Thomas A. Teller.

Arena said that an Edgartown lawyer, Richard J. McCarran, had informed the clerk he is representing Kennedy. McCarran asked for a hearing, to which Kennedy is entitled before any summons is issued.

Hearing July 28

Teller set July 28 for the hearing, which will be held in the Edgartown courthouse.

A crowd of several hundred persons, mostly tourists, filled the street outside the red brick, century-old courthouse as Arena

crossed the street from his headquarters in the Town Hall to visit the clerk.

Arena said Sunday he is "firmly convinced there was no negligence involved" in the accident.

"But the matter of the time period after the accident . . ." Arena said. "There is, in my opinion, a violation concerning going from the scene, leaving the scene."

The mishap occurred between 11 p.m. Friday and 1 a.m. Saturday as Kennedy was driving Mary Jo Kopechne, 28, of Washington, to a landing to catch the ferry back to the Vineyard.

Trapped

The car skidded off a narrow bridge and landed bottomup in eight feet of water. Kennedy escaped with what a physician said was a mild concussion. Miss Kopechne, former secretary to the late Sen. Robert F. Kennedy, D-N.Y., was trapped in the vehicle and drowned.

Kennedy went to the police 10 hours after the accident. The car had been found by then; two boys going fishing saw its wheels beneath the water.

In a police statement, Kennedy said he was left dazed by the accident. He said he tried repeatedly to rescue Miss Kopechne, but was not able to find her.

The 37-year-old Massachusetts Democrat and Miss Kopechne had been at a dinner party at a private home on Chappaquiddick attended by several of Kennedy's friends and political associates. Kennedy said he returned to the home after the accident and climbed into the rear seat of a car parked outside.

"I then asked someone to bring me back to Edgartown," he continued. "I remember walking around for a period of

King's Brother Found Dead

ATLANTA, Ga. (AP) — The Rev. A. D. King, 38, only brother of slain Dr. Martin Luther King Jr., was found dead today in the swimming pool of his Atlanta home, an associate said.

King came home late Sunday night and went for a swim in his backyard pool and his body was found this morning by three of his children, said the Rev. Andrew Young.

Cause of death was not learned immediately.

Fairfax 'Bloody Happy' Of Feat

FORT LAUDERDALE, Fla. (AP) — John Fairfax planned for 17 years to be the first man to row the Atlantic. But when he set out to do it in three months, he admits, "I didn't know what I was talking about."

Almost to the day, it took him twice that long to row the 4,000 miles from his starting point, the Canary Islands.

"But I wanted to do it and I did it," said the 32-year-old Briton, "and I feel bloody happy about it."

His long hair bleached by the sun and his eyes bloodshot from the glare of the sea, the grinning London bachelor stroked ashore at 1:56 p.m. EDT Saturday to be congratulated by scores of sunbathers at Hollywood Beach.

One of the first to speak to him, a pale-skinned man in trunks, said: "You're a damn fool, you know."

But Fairfax described himself as a romanticist and said he finally accomplished something he had planned to do since he was a schoolboy of 15.

"I think it is a bit symbolic that I arrived in America, which is a son of England, you know, a rather large son," he said. "And I did it about the same time as you Americans were reaching for the moon."

Guided only by sextant and compass, Fairfax landed only 12 miles north of his planned destination of Miami. Swift currents of the Gulf Stream propelled him 110 miles north during the last 48 hours of his voyage, he said.

Teenager Dissents:

Lovers' Moon Never Be Same

LONDON (AP) — Laplanders pasturing their reindeer listened on transistor radios. Japanese stayed up all night to watch on television. Millions around the world hung on every word from the two U.S. astronauts walking on the moon.

In some countries many remained unaware. Communist China, with one quarter of the world's population, did not broadcast news about Apollo 11, nor did North Vietnam or North Korea.

As Neil A. Armstrong's boots scuffed the lunar dust, it was just before sunrise in most of Europe and a crowd of 2,000 still clustered around a giant television screen in London's Trafalgar Square.

At the Jodrell Bank radio observatory, Sir Bernard Lovell, Britain's leading space expert, stopped tracking the progress of the Soviet craft Luna 15 over the moon to watch Armstrong.

Speechless
"I'm just speechless with a amazement," Lovell said. "There is nothing more I can say than that it is absolutely fantastic. One can scarcely believe it is taking place as one sees it."

Crowds in front of TV screens at Paris sidewalk cafes and bars in Rome cheered as Armstrong bounded over the moon's surface and Buzz Aldrin began his descent.

There was no word from the Vatican on whether Pope Paul VI stayed up to watch the walk, but when the astronauts landed the 71-year-old pontiff hailed them as "conquerors of the moon." He said man faces "the expanse of endless space and a

Upper Peninsula Legislative Tour Begins July 31

A group of about 22 state representatives and their families will begin an eight-day tour of the Upper Peninsula sponsored by the Upper Michigan Tourist Association Thursday, July 31.

Purpose of the tour, said President Robert Sayles of Newberry, is "to sell the Legislature of the economic importance of the Upper Peninsula and of the need for supporting specific projects in the local areas."

The tour, he said, is designed as a report of the 1965 tour. The legislators will represent a cross-section of committee members.

Lodging and meals for the touring group will be arranged by local persons working with UMTA, Sayles reported, because "it is impossible to have them come to Upper Michigan on such a broad base and be reimbursed by the state for travel expenses and lodging."

The group will assemble at the Mackinac Bridge Authority office, St. Ignace, at 9 a.m. on July 31. The tour itinerary follows:

Thursday, July 31 - Thompson for coho site inspection, Fayette State Park, Escanaba for visits at the Escanaba Paper Co., Harnischfeger Corp. and the new Chicago & North Western Railway over terminal, and Iron Mountain (overnight);

Friday, Aug. 1 - Iron River for briefing by Iron County leaders, Sylvania tract, Big Powderhorn and Indianhead ski areas, Copper Peak Ski Flying hill, White Pine mine, Porcupine Mountain State Park, Ontonagon and Houghton (overnight);

Saturday, Aug. 2 - Isle Royale (overnight);

Sunday, Aug. 3 - Return from Isle Royale to visit Copper Country tourist attractions, Houghton (overnight);

Monday, Aug. 4 - Piquette, Van Riper State Park, Carp River Gorge, Marquette (overnight);

Tuesday, Aug. 5 - Munising and Pictured Rocks, trip to Grand Marais and Seney, Newberry (overnight);

Wednesday, Aug. 6 - Upper and Lower Tahquamenon Falls, Paradise and Big Sea Water Road, Sault Ste. Marie (overnight);

Thursday, Aug. 7 - Tour north on Lake Superior, Canada, returning to U.P. for stops at DeTour, Les Cheneaux Islands.

Conferences in the Upper Peninsula are scheduled with community and education leaders at most of the tour points.

Representatives scheduled to make all or part of the tour are: Leonard Walton (D-Detroit); James Bradley (D-Detroit); Warren Goemaere (D-Roseville); Matthew McNeely (D-Detroit); George Prescott (R-Tawas City); Nelson G. Tisdale (R-Midland); Alfred A. Sheridan (D-Taylor); George F. Montgomery (D-Detroit); Russell Helman (D-Dollar Bay); Dominic Jacobetti (D-Negaunee); John Bennett (D-Detroit); Casmer Ogowski (D-Detroit); Albert Horgan (D-Flint); Stanley Davis (D-Grand Rapids); Robert Traxler (D-Bay City); Jelt Sietsema (D-Grand Rapids); and William Fitzgerald (D-Detroit).

Two Arrested On Gun Count

A Rapid River woman was almost shot when she disarmed a would-be assailant at 12:15 this morning in a scuffle at the West Side Tavern, 322 Stephenson Ave.

Escanaba police reported that Sharon Frank, 23, Pacific Grove, Calif., and Michael Moen, 26, Fort Worth Tex., had entered the tavern, when, according to witnesses, Moen started to argue with Howard Bader, 43, Rte. 2, Rapid River.

Police said that after an exchange of words Bader asked Moen to step outside where a scuffle ensued. According to officers, during the battle Moen reached inside his shirt and pulled out a pistol and handed it to Miss Frank.

Shirley Bader, 36, Howard Bader's wife, then grabbed Miss Frank by the arm and as they fought a shot was fired, police said.

Officers said that after the shot was fired Moen took the gun and fled the scene in his truck. He was stopped by police a short distance from the scene and taken into custody. Moen is currently being held in the Delta County jail on a charge of carrying a concealed weapon (felony).

Miss Frank was detained by patrons at the tavern and was arrested there by police. She also was charged with carrying a concealed weapon and with being a disorderly person.

Moen and Frank will appear today before Judge Dean Shipman in District Court to answer to charges.

MEMBERS OF THE Escanaba Moose Lodge, who celebrated the first anniversary of the lodge's chartering at the lodge clubrooms Sunday, were more interested in television reports of the Apollo 11 astronauts on the moon. The television set was so clustered with people that one man decided to stand on a table. (Daily Press photo).

Mrs. F. Deiter Dies Saturday

Mrs. Fred (Ruby M.) Deiter, 76, of the Chemical Plant Location, Gladstone Rte. 1, died at 5:30 p.m. Saturday at St. Francis Hospital following a lingering illness. She had been seriously ill for one year.

She was born Sept. 9, 1893 in Lathrop, Mich., and had been a resident of Delta County all of her life. She had lived at the Chemical Plant Location for the past two years. Mrs. Deiter was a member of St. Anthony's Church of Wells.

Survivors include her husband, three sons, Harold of Iron River; Clarence of the Chemical Plant Location and Floyd of Green Bay; four daughters, Mrs. Violet Brazeau and Mrs. Roy (Bernice) Sebeck of Escanaba, Mrs. Leonard (Dorothy) Brazeau of the Chemical Plant Location and Mrs. Leroy (Blanche) Lambert of Neenah, Wis.; three sisters, Mrs. Joseph Martin and Mrs. Zenon Miron of Gladstone Rte. 1 and Mrs. Jesse Deiter of the Chemical Plant Location; one brother, Lawrence Burr of California, 28 grandchildren and 23 great grandchildren.

Friends may call at the Alto Funeral Home from 4 to 9:30 p.m. Monday and parish prayers will be recited at 8 p.m. Funeral services will be conducted at 10 a.m. Tuesday at St. Anthony's Church in Wells with the Rev. Norbert Freiburger officiating. Burial will be in Gardens of Rest Cemetery.

Escanaba Man Heads Parochial Campaign

Acceptance of an appointment as director of the campaign for full civil rights for non-public schools in the Upper Peninsula by Kenneth M. Bray, 42, of 2301 S. 21st St., was announced today.

Rev. Fr. Louis Cappel, pastor of St. Anne's Catholic church of Escanaba, and chairman of the steering committee of the Marquette Diocese Friends of Education, announced Bray's acceptance of the campaign leadership and said that he had been given a part-time release from his duties as Escanaba Branch director of Catholic Social Services by the Most Rev. Charles A. Salata, D.D., Bishop of the Diocese of Marquette, to accept the job.

"We will concentrate," said Bray, "on a campaign of public education on the issue of state aid to non-public schools. The States of Ohio, Pennsylvania, Connecticut, and Rhode Island have granted such aid but the House of Representatives of the Michigan Legislature rejected it by a margin of six votes in the current session."

To Shift Emphasis

"We will examine the strange situation in which four of our five Upper Peninsula representatives voted against aid to non-public schools, but then three of them turned around and voted for aid to the Catholic University of Detroit Dental College," Bray said.

"While our campaign is getting its start with the aid of the Catholic Diocese of Marquette, we hope to enlist in the cause of continuing our dual system of public and private schools, non-Catholics and all others interested in freedom in educational choice."

"And while the issue up to now has been heavily weighted with talk of money saving by keeping the non-public schools open, we plan to bring it into better perspective, basically as a matter of principle and not economics," he continued.

"For the state to say: 'we will gladly pay the greater cost of educating all children in the public schools,' proposes not only a needless increase in the cost of government, but also denial to our citizens of a choice of public or non-public schooling for their children. The private schools, after a century of bearing their own burdens and helping support the public schools, can no longer cope with rising costs," Bray said.

A meeting of laymen and priests of the Diocese of Marquette in Marquette on Friday, the U.P. was divided into 13 population areas and committee organization for the campaign was planned for each of them.

The Michigan Legislature returns to Lansing Oct. 6 and three days later Gov. William Milliken will send his message on educational policy, reflecting the findings of his Governor's Commission on Educational Reform in its current study of the State's school problems. The commission held three public hearings, the first of them at Northern Michigan University, Marquette July 8.

Bray has been with Catholic Social Services for 17 years. A native of Vulcan, he is a graduate of Northern Michigan University and the father of five children. He is an Upper Peninsula leader in social welfare programs, was an author of the Western U.P. Health Council and is currently launching a Delta area program for aid to alcoholics.

Hurt In Mishap Near Cornell

Edward Layton, 42, Westland, Mich., is listed in fair condition today in Escanaba's St. Francis Hospital following a one-car accident on County Rd. 426 near Cornell Saturday night at 9:20.

State Police said that Layton lost control of his car when he tried to negotiate a curve, ran off the roadway and struck a road sign.

Troopers reported that Layton was taken by ambulance to the hospital.

No ticket was issued.

Bill Improves Bay Finances

Information received by Bay de Noc Community College today regarding state funding indicated that many improvements have been made in the appropriation, reported Dr. Richard Rinehart, college president.

Rinehart said the estimated college operating budget for 1969-70, including federal programs and major purchases of equipment for the college's new building is \$809,771.

Of this he said, the legislature will pay a total of \$384,247, including \$55,170 for teacher retirement and Social Security.

He said the state appropriation was reached after federal funding, local tax revenues and estimated tuition payments were subtracted from the total estimated budget.

"The new act provides a lump sum of dollars for the college rather than so many dollars per student," Rinehart said, "and in this way recognizes the lower tax base and lower tuition rates of the college. The amount of the appropriation is sufficient to continue the growth in college services and continue the building program without putting undue strain on the existing millage and tuition rates."

Rinehart credited Rep. Charles Varnum (R-Manistiquette) with the success in effecting several changes desired by the college and in securing sufficient funds to provide the additional services.

Obituary

MILTON KELL

Complete funeral services for Milton Kell of Powers were held at 1:30 Saturday from the Kell Tondin Chapel in Spalding and from the Zion Episcopal Church at 2 with the Rev. Ben Helmer officiating. Burial was in the family lot in Riverside Cemetery, Menominee. Pallbearers were George Hansen, Carl Barron, Russell Sargeant, Melvin Vazer, Walter Vazer, and Gilbert Hinderson.

MRS. PHIL MIRON

Funeral services for Mrs. Phil Miron were held today at 9 a.m. at St. Joseph's Church with the Rev. Isidore Walter officiating. Burial was in the West Ford River Cemetery. Pallbearers were Al John, Emerson and Lawrence Kidd, Roy Schmitt and Clayton Marenger.

Peru is starting a long-range plan to clear 3.2 million acres of jungle and resettle 5,250 families, to be farmers.

Soviets To Seek U.S. Cooperation: Kosygin

MOSCOW (AP) — Former Vice President Hubert H. Humphrey met today with Soviet Premier Alexei Kosygin and said Kosygin told him the Soviet government is looking forward to cooperation with the United States.

"Kosygin gave me a message to take back to the United States," Humphrey said after the 2 1/4-hour meeting. "He wanted me to tell the President and the American people that the Soviet Union wants to work with the United States for peace."

"I think there is a basic Soviet desire to negotiate in good faith on matters of substance."

Humphrey also reported that Kosygin was "very complimentary about Apollo 11 and expressed his personal good wishes to the astronauts and their families." Humphrey told a news conference that the premier was very complimentary in general about U.S. space achievements.

The chief of the Soviet Communist party, Leonid Brezhnev, also wished the Apollo mission success as he arrived in Warsaw to attend the 25th anniversary celebrations of the Polish Communist government. As he passed down the receiving line at the airport, he shook hands with U.S. Ambassador Walter J. Stoessel Jr. and said in Russian, "Z uspiehom," which means "With success," Stoessel told newsmen afterwards.

Humphrey was going later today to Yugoslavia.

It was the first time this year that Kosygin has seen a leading U.S. politician and seemed further evidence of a Soviet wish to improve relations with the United States.

Coming Events In Apollo Flight

SPACE CENTER, Houston — (AP) — Highlights of Apollo 11's fifth and sixth days in space, all times Eastern Daylight:

The day ahead (Monday):

After a seven-hour rest period, astronauts Neil A. Armstrong and Edwin E. Aldrin Jr. trigger lunar module (LM) ascent engine for crucial seven-minute burn at 1:50 p.m. to put LM into initial lunar orbit ranging from 11 to 52 miles high.

Smaller maneuvering rockets fire several times to propel LM into 69-mile-high circular orbit with command ship for docking at 5:26 p.m.

Armstrong and Aldrin join astronaut Michael Collins in command ship two hours later.

Unmanned LM jettisoned from command ship's nose at 9:20 p.m.

Command ship's main engine fired at 12:52 a.m. Tuesday to propel Apollo 11 out of moon orbit and start return trip back to the earth.

THE PLAYERS de Noc prepare for today's opening night performance of "The Fantasticks" at the Terrace. Pictured from left to right are Dick Puglisi, Jim Moore, Sue Garrard, Ken Thompson, Peter Adamini and Coralie Puglisi. The show will run for one week beginning with an 8:30 performance tonight.

Letters To The Press

'Literally Fantastic'

What an enjoyable, humorous and delightful experience is in store for music and drama enthusiasts in the area.

The Players de Noc have outdone themselves with a quality production scheduled to open this evening at the Terrace at 8:30.

My observation of one of the dress rehearsals was sparked

with interest as to the self-confidence, excellent talent and overall exuberance of the cast.

One of the outstanding new ideas of this production is the three-quarter-round stage effect where, no matter where a person is seated, he has full view and audible range of the show. The intimacy created with this type of staging caused me to feel a part of the production as I found myself silently singing along with some of The Fantasticks' popular tunes — "Soon It's Gonna Rain" — "Try To Remember."

The other outstanding features that sparked my interest were the special lighting system arranged especially for this production; the implied and simple scenery which is a part of the show and does not need complete change to tax the time of the audience; and especially the small musical "combo" consisting of two pianos, bass viol, and percussion.

I would like to commend, even before "curtain time," the talented cast, crews and especially the directors, Peter D. Adamini and Mrs. Ruth Chown, for a completely different and "literally fantastic" production which they are about to unveil. "The Fantasticks" will be presented all week through Saturday, July 26. The Terrace is housing the production and is accepting reservations for

tickets. Tickets can be purchased at the door or by calling 786-9200 or The Terrace.

Illness Claims Mrs. Weiks, 52

Mrs. Clarence Weiks, 52, an Ensign and Ogontz resident, passed away on Saturday at 7 p.m. at St. Mary's Hospital in Milwaukee.

Mrs. Weiks was born January 23, 1916, in Ogontz and was the former Frances Heric. She had been ill since January. She was a member of St. Charles Church in Rapid River.

Surviving are her husband, Clarence; one daughter, Mrs. Richard (Caney) Tryan of Escanaba; three sons, Clarence Jr. and James of Fort Wayne, and Robert of Marathon, Wis.; her mother, Mrs. Anna Heric of Gladstone; two sisters, Mrs. Alvin (Margerite) Lewis of Marquette, and Mrs. Lawrence Greenier of Gladstone; one brother, John Heric of Iron Mountain; and seven grandchildren.

Friends may call at the Skradski Funeral Home after 5 p.m. today with parish prayers at 8.

Funeral services for Mrs. Weiks will be at 10 a.m. Tuesday at St. Charles Church with the Fr. Conrad Dishaw officiating. Burial will be in the Rapid River Cemetery.

Ruppe Confident Lamprey Control Funds To Grow

WASHINGTON D. C.—Congressman Philip E. Ruppe (R-Michigan) expressed confidence today that an increase in funding for the lamprey control program in the Great Lakes will be passed by the House of Representatives this week.

Ruppe praised Michigan Congressman Elford Cederberg, Appropriations Committee member, who successfully inserted a \$200,000 increase in an appropriations measure scheduled for floor action this week.

Ruppe said action by the House Appropriations Committee increasing lamprey control funds from \$1,063 million to \$1,263 million is a major step forward in the war against the lamprey.

"I know," said Ruppe, "that this additional \$200,000, mostly for the Lake Huron program, is desperately needed by the Great Lakes Fisheries Commission to successfully control this parasite which threatens fish life in the Great Lakes."

I am confident that we will get congressional approval."

Adelore Gerou Of Perkins Dies

Adelore Gerou, 72, a Rte. 1 Rock, Perkins resident, passed away at St. Francis Hospital.

He was born January 21, 1897, in Perkins and was a retired farmer and woodsman. He was a member of St. Joseph's Church in Perkins, a WWI veteran and a member of the American Legion Post 540 of Perkins.

Surviving are his wife Nellie; three sons, Adelore J. and William of Escanaba, and Wilford of Niles; three daughters, Mrs. Dennis (Katherine) Schaefer of Escanaba, Mrs. Lynn (Lorraine) Babcock of Gladstone, and Charmaine Gerou of Green Bay; and 19 grandchildren.

Also surviving are four brothers, Paul, Joseph, and Leo of Kenosha, and Oliver of Perkins; two sisters, Mrs. Peter (Virginia) Vepley of North Chicago, and Mrs. Albert (Melvina) Burdick of Kenosha.

Friends may call at the Skradski Funeral Home after 3 p.m. on Tuesday with parish prayers at 8:30.

Funeral services will be at 9:30 Wednesday morning at the St. Joseph's Church in Perkins with the Fr. Conrad Suda officiating. Burial will be in the Gardens of Rest Cemetery with military rites conducted by the American Legion Post 540.

TIM CURRAN of Escanaba, president of the Escanaba Moose Lodge, presided over installation ceremonies for new members Sunday as the lodge observed its first anniversary. (Daily Press photo.)

American Motors Omits Dividend

DETROIT (AP) — American Motors board of directors voted today for the 16th consecutive quarter to omit payment of a dividend. The firm's last dividend was paid Sept. 30, 1965. AMC, the nation's fourth largest auto manufacturer, no-dividend decision was fiscal year quarter ending 30. Its financial statement due to be released later day.

The Family Of Adelore Gerou

Respectfully Request That Memorials Desired In His Name Be Directed To St. Joseph's Church, Perkins, Michigan.

QUESTION:

African Charged In Assassination Of Tom Mboya

NAIROBI, Kenya (AP) — Police charged an African today with the assassination of political leader Tom Mboya, gunned down on a Nairobi street July 5.

Mboya's death touched off tribal clashes between his Luo tribe and the Kikuyu, who make up a majority of those in government and are the largest tribe in Kenya.

The man charged in court here and held without bail pending trial is Nashashon Isaac Njenga Njoroge.

Police declined to give his age, address, tribe or any other details, but Njoroge is a Kikuyu name.

Asked if any other arrests were expected, a senior officer said only that the investigation was continuing.

Questions

The challengers of school finance have moved the Manistiquette Area public schools into the center ring.

A year ago, when the Escanaba Area Board of Education was making repeated attempts to pass operating millage, the insinuation was made rather strongly that all was not quite cricket in the financial affairs of the district. Even when a reputable firm of local auditors reported that the books all appeared to be in order, the critics still demanded an audit by the Michigan Dept. of Treasury to "prove" there was no hanky-panky with the cash.

Now, the same problem has reached Manistiquette and the leader of the loyal opposition is Leon Wood, a member of the school board who campaigned and won election to the board, in part, by questioning the reliability of school district records.

Wood, of course, is perfectly within his rights to ask questions, but questions can be phrased like accusations, and to accuse without evidence is to convict without a trial and can serve no purpose except to disrupt the educational progress of the community.

A member of the school board should concentrate on building the educational program, not on tearing it down.

Alarm Boxes Go

City Council has approved elimination of the public fire alarm boxes scattered throughout the city, ending a system of fire warning which began some 70 years ago.

Over the past five years, according to research by Fire Chief Palmer Derouin, the Escanaba Fire Dept. answered 68 calls from the alarm boxes.

Most of those calls were false alarms — a cause of great concern to firemen because of the dangers involved in making needless high-speed runs with fire equipment and also because of the possibility a real fire could develop when equipment was out of the station.

Only five calls, he reported, were for actual residential fires and in only two of those instances was there any question about the availability of a telephone.

Telephone communication actually rendered the public alarm boxes obsolete years ago, but when the boxes were installed telephones were still crude devices compared to the modern touch-tone and dial equipment in now use. Today, it's the fire alarm boxes that are the crude system compared to telephone equipment.

In a day of demands for increased fire and police protection, the action to eliminate the fire alarm boxes runs a little contrary to the popular grain, but with a price tag of some \$50,000 to modernize and extend the system to all parts of the city it was a move that had to be taken.

The gap it leaves in public protection has more than been filled.

The Williams Case

The United States Government will have to decide soon how to deal with the case of Robert Williams.

Williams is a native-born American citizen who fled the country in 1961 to avoid prosecution on kidnapping charges in Monroe, N. C. He has lived abroad for the last eight years as the guest of Chinese and Cuban Communists and has directed the activities of the Revolutionary Action Movement (RAM), a group cited by authorities as having been involved in the big-city riots.

FBI Director J. Edgar Hoover has characterized RAM as "dedicated to the overthrow of the capitalist system in the United States, by violence if necessary, and its replacement by a socialist system oriented toward the Chinese Communist interpretation of Marxism-Leninism."

Last year a group of black militants elected Williams "president" of the "Republic of New Africa," a separate black nation which RAM wants to create out of several states of the Deep South.

Now, according to a dispatch from Dar es Salaam, Tanzania, Williams says he intends to return to the United States in the near future to clear up the legal charges against him and take an active part in the black power movement.

How the government will deal with this case remains to be seen. The State Department, however, has already issued Williams a passport which it says is "valid only for direct return to the United States." Although objections have been raised in Congress, the department contends there are no legal grounds for barring Williams from the country.

It is certain that the manner in which the government handles this case will be watched closely by the American people and by foreign governments. Williams has traveled throughout the world for eight years without an American passport in a concerted effort to embarrass the United States. While U. S. soldiers were dying in Vietnam, he visited Hanoi to offer words of encouragement to the Communist aggressors.

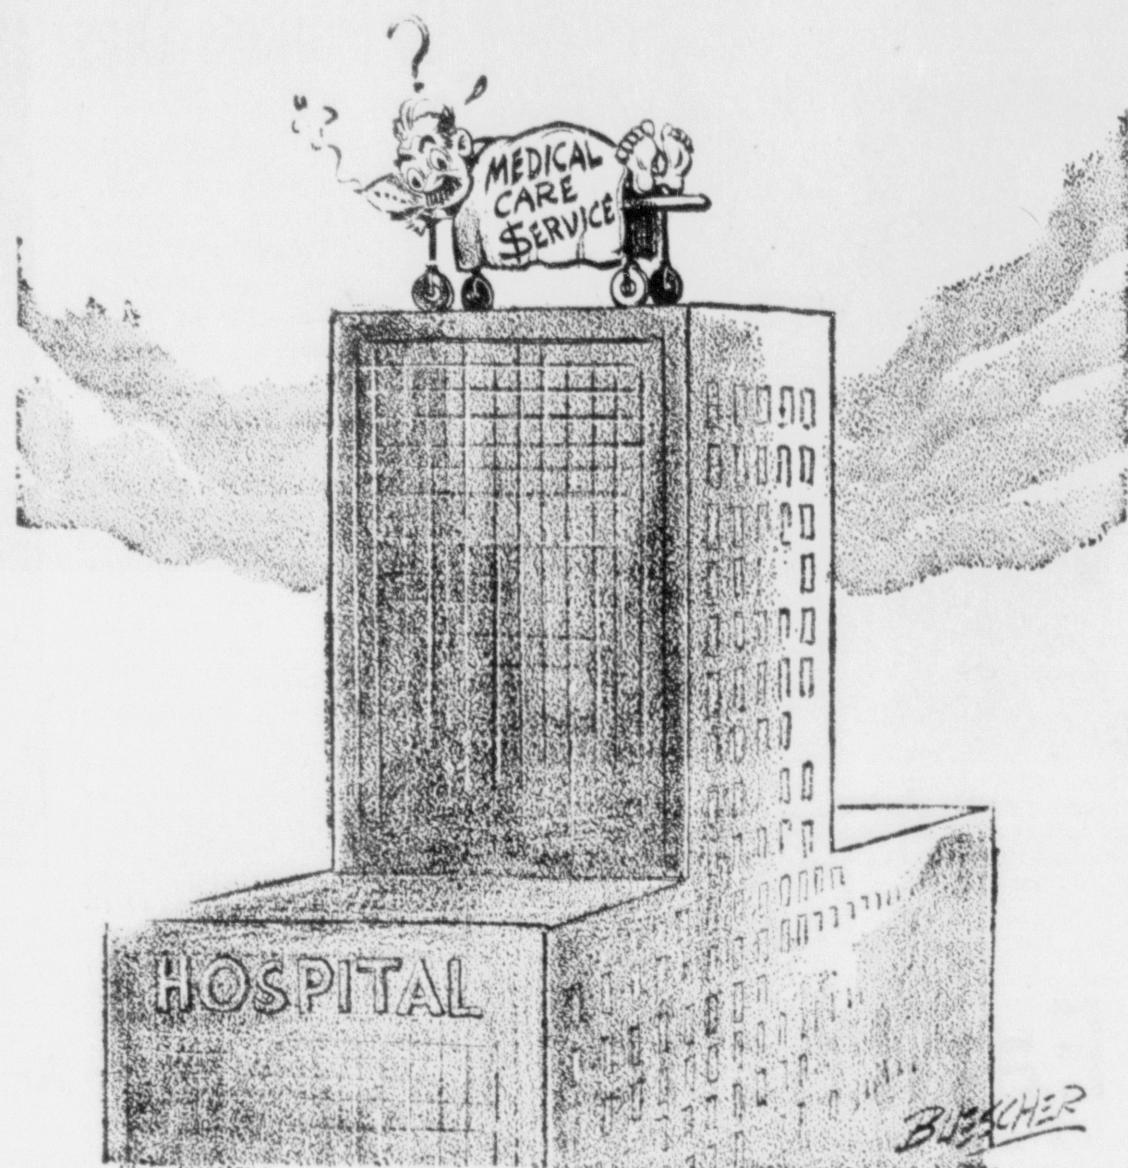

The United States prides itself on being the "land of freedom" and so Williams, ultimately, may have to be admitted. But freedom, even in the United States, is limited by constitutional law. And Robert Williams, the rebel, must learn to abide by it or face the consequences.

Peninsula Potpourri

Marine Associates of Menominee will start building 15-foot fiberglass boats in late July with production rate of four to five a week.

The City Commission of Marquette has given tentative approval to plans to raze a block of buildings on S. Front St. and replace them with a free public parking lot for 165 cars under a cooperative program of private and municipal financing. Acquisition of the property, razing and paving of the parking lot is estimated to cost \$175,000 with the city contributing \$40,000 and the balance to be paid by the Downtown Improvement Corp., a group of downtown merchant.

HIGH RISE

Hedgerows A Problem In Advance To St. Lo

(EDITOR'S NOTE: This is the second in a series of articles by James E. Trethewey, member of the Marquette Mining Journal editorial staff, regarding 29th Infantry Division action in Europe during World War II.)

By JAMES TRETHEWEY

Nearly 2,000 years ago Julius Caesar and his Roman legions were faced with somewhat the same problem in their campaign against the Gauls which American forces encountered in the World War II battle for the strategic city of St. Lo and the subsequent pursuit across Normandy.

Long marches across the moors and assault and amphibious training for one and one-half years in England had prepared officers and men of the 29th Infantry Division for resistance faced during invasion of Hitler's Fortress Europe in June of 1944. And back in the states, hikes and training in street and field fighting was being given infantry replacements who would fill division ranks later.

But somehow, even though it was known that this type of terrain existed, no one had thought of preparing soldiers for fighting in the network of hedges and earthen walls known as hedgerows which provided the setting for conflict throughout the Normandy campaign.

German Advantage
These hedgerows formations provided advantages for the Germans defending the approaches to St. Lo. Even later, during the campaign for the capture of Brest, daily advances were measured in the number of hedgerows taken.

St. Lo, an objective which was scheduled for capture by the middle of June (D-Day plus 9) was so strongly defended that it didn't fall to Americans until five weeks later.

Not until that city — center of an enemy communications network — was taken were U.S. forces able to begin a sweep across Northern France.

The hedgerows proved of tremendous tactical importance to the Germans in defending the approaches to St. Lo.

Natural Barriers

These were natural fortifications four or five feet high, sometimes even higher, topped by heavy growths of hedge and brush. They proved natural barriers around every field and orchard in Normandy.

Centuries ago, the hedgerows must have been built by French farmers to fence in their land, or possibly to irrigate the soil.

Countless shells and tons of high explosives were used in attempts to provide openings through them.

It took the 29th Division from June 11 to July 18 to capture St. Lo, just seven miles away. During that advance division troops experimented with new tactics to move forward through the hedgerows.

Movement Slow

It was difficult to use tanks because their movement on narrow roads made them easy targets for the enemy. The hedgerows were too high to climb. At first openings were blasted through the earthen walls for the tanks to move through; later the tanks lifted the tops off the hedges — sometimes large trees had to be uprooted in the process — and climbed over.

Tank crews then would follow the next hedgerow (50 to 100 yards away) with heavy fire, enabling squads of riflemen to advance.

Forward movement in the hedgerow campaign was, at best a slow, difficult process.

About the only advantage to Americans in the hedgerow fighting was the ease in digging foxholes. The soil was soft, quite a contrast to rock-like ground found in many training camps. A soldier sometimes dug as many as three or four foxholes during a single day's advance.

Tiny French towns, too, were taken during the Normandy campaign, often at heavy cost. Then there were hills fiercely defended for observation purposes and often the scene of large-scale counterattacks by the Germans after division troops had taken over.

The bitter, close-in fighting for each position can best be realized by a report of casualties after one German counter-attack on a battalion area of the 115th Regiment. That enemy raid cost the battalion 184 casualties in death and wounded; 87 German bodies were counted after the attack was repulsed.

Ammo Was Short

One of the major factors in slowing the drive for St. Lo was a shortage of ammunition for artillery battalions. This was the direct result of wrecking of artificial harbors at Omaha Beach during violent English Channel storms in late June.

St. Lo, rebuilt over the last 25 years, was in ruins when the division's Task Force C — a hard-striking unit of mechanized units, engineers and infantrymen — finally moved into the city. Members of the 115th Regiment's 1st Battalion, hurrying forward in their efforts to get out of the way of punishing German artillery fire, literally ran into St. Lo.

The Germans made repeated

People, Events Of Yesteryears

From the Files of the Escanaba Daily Press

25 Years Ago

Lt. Howard McKie is visiting at the home of his parents, Mr. and Mrs. Howard McKie. He has just returned from 20 months service in the Aleutian Islands.

50 Years Ago

Application for a passport was made at the county clerk's office yesterday by Carl E. Rasmussen of Kipling to return to Denmark to visit his parents. He was in the United States Army and came here from Denmark in 1915.

Even in war, Saigon has an eye for beauty. Before a recent holiday, Mayor Pham Phu Khai ordered trenches in front of City Hall filled in and planted with flowers. He explained, "We'll empty some storage rooms under City Hall for use as a shelter, but leave the flowers out there. One must also do something for the spirit."

The bidding:			
South	West	North	East
Pass	Pass	1♥	2♣
2♠	Pass	3♣	Pass
3♠	Pass	4♠	

Opening lead—jack of clubs. Most hands that are bid or played well in the annual world championship achieve very little notoriety, because good bidding and good play are exactly what the bridge-playing public expects from the top performers.

But some of these hands, interesting and instructive though they may be, completely escape the attention of bridge writers and players because the outcome at both tables is exactly the same and hence does not make particularly good headline material.

Here is one such deal played by Italy and the United States in the 1967 world championship. When Garozzo and Forquet were North—South for Italy, they arrived at four spades in the manner shown.

It was a sound contract that ordinarily would be made, but Forquet encountered a combination of bad luck and good defense, as the result of which he went down one.

West (Edgar Kaplan) made the normal lead of the jack of clubs and East (Norman Kay) realized that straightforward defense would not produce more than three tricks (two clubs and a spade). He therefore embarked on an unusual course of play that seemed to him to offer a good chance of defeating the contract.

He overtook the jack of clubs with the queen and returned his singleton jack of diamonds. Declarer won in dummy with the queen, led the jack of spades, which held, and continued with a trump—which Kay took with the ace.

Kay now underled the A-K of clubs, Kaplan winning with the ten. Kaplan then returned a diamond, which Kay ruffed to put Forquet down one.

This high-class defense was duplicated at the second table by the Italian East-West pair, Avarelli and Belladonna. They also cooperated perfectly to defeat four spades in the same way, and the hand proved to be a total washout.

U. S. Population Is Growing Older

By HAL BOYLE

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail:

The U.S. population is growing older. Back around 1900 only four per cent of the people were over 65. But government figures indicate that by 1975 one in 10 persons—some 20 million—will be in the senior citizens bracket. Speaking of age, here's a novel way to classify yourself. If the first love letter you wrote took a 4-cent stamp, you're still young. If it had a 3-cent stamp, you're middle-aged. If it had a 2-cent stamp, you're ancient.

Are the frustrations of life in crowded cities a major cause of heart attacks? Dr. Robert W. Wissler of the University of Chicago doubts it. A study he made of faged and uncaged monkeys found little statistical difference in their cholesterol levels and artery-hardening rate.

Thin people are more likely than fat people to be bitten by mosquitoes. The reason: they generally have a higher metabolism and emit more heat, which attracts the insects.

Nixon Saves Time

The open road is becoming more deadly. Every 11 minutes around the clock an American man, woman, or child is killed in a highway accident. Every nine seconds someone is hurt badly enough to be disabled for more than a day.

Quotable noables: "When you're a blonde, people sort of lean forward when you ask them a question. They take your arm to keep you from falling into an open manhole. But when you're a brunette... you're just one of the bunch."—actress Carol Channing.

Speed-up: By signing only his first and last names to official documents—omitting the middle name or initial—President Nixon is reported to save 47.8 seconds a day, according to the New Yorker magazine. That gives him about four minutes more a week to solve major crises at home and abroad.

Household hint: If you can't seal an envelope because it has too little adhesive, use colorless nail polish as a glue. It dries quickly, leaves no smudge. A further advantage: the envelope can't be steamed open and resealed.

Bibles In Car

Spreading the Gospel: One Midwest auto dealer places a copy of the New Testament in the glove compartment of every new or used car he sells.

Protection: Perhaps the widest fear in America today is the fear of illness. Nine out of 10 people in this country under 65 now have some form of private health insurance.

Quickies: Color blindness is more common among highly civilized people than among savages. The longest national anthem is that of Greece, which has 138 verses; the shortest are those of Jordan, San Marino, each having only four lines. An Australian boomerang in the hands of an expert is deadly up to 100 yards. The longest hop on record by a flea, measured in 1910, was 13 inches.

It was Charles Baudelaire who observed, "One must work, if not from inclination, at least out of despair—since it proves, on close examination, that work is less boring than amusing oneself."

SCOTLAND HOUSE DRIVE

NEW YORK (AP) — The American-Scottish Foundation has begun a drive for \$500,000 for the purchase of a Scotland House here.

Plans include a library, reading room, Scottish information and tourist desk, research center, dining room, bar and facilities for instruction in Highland dancing and a display of fine Scottish wares.

An effort is now under way to locate Americans of Scottish descent, to seek their help in the project.

Ann Landers

Blames Freeloaders For Losing Home

Dear Ann Landers: The letter from that 17-year-old kid who complained about the food they were getting from welfare really burned me up. He mentioned everything but work. I am up to here with government handouts—county, state and national, and yes, international, too. Our country didn't get to be the richest nation in the world because our forefathers sat around on their duffs waiting for somebody to give them something. They WORKED.

Eight years ago we bought a beautiful home in the suburbs. Last year we had to sell our dream house because we couldn't get anybody to work out here. The man who promised to shovel the snow never showed up. The bum who caled himself a gardener worked when he felt like it and he didn't feel like it very often. I hired and fired four day-ladies and two laundresses in less than nine weeks, three quit. To interest a sitter, I had to promise her the moon. Finally I gave up. We couldn't get the storm windows up or the screens off or the garage painted. Nobody wanted to work. They'd rather collect welfare.

If you are fair, Ann Landers, you'll print the other side of the story instead of urging your readers to behave to their Congressmen in wrath of a bunch of lazy bums.—Disgusted in Minneapolis

Dear D in M: In a system such as ours, freeloaders is inevitable. It is still the best system in the world, nevertheless, and I'd rather have it, with all its imperfections, than any other.

We must not deny help to the aged, the handicapped, the sick, or the children of those lazy bums. No one must be allowed to suffer from hunger for any reason. I am willing to be duped by ten parasites in order to make sure one deserving person does not starve. Are you?

★ ★ ★

Dear Ann Landers: Please tell me not to marry because they feel sorry for the girl and figure on making her over into something better after marriage. It won't work. If a man feels superior to the woman he marries, she will discover it sooner or later and it will destroy her.

Both my husband and my son made this mistake. After they grew weary of their "inferior" wives they found younger women who were more attractive and more interesting. Since they are both honorable men, there was no laundering of stolen linen in public, no broken homes, no open cheating. It's all very discreet. But the heartache is unbearable.

My daughter-in-law turns to me for comfort, courage and counsel—never suspecting that

for me; it is the second time.

Dear History: Your story contains more than one lesson. I hope those who believe "mother-in-law" is a dirty word will read your letter again.

★ ★ ★

Confidential to Eghead Who Made The Scene And Left It To The Dullards: The yoke's on you, Brother. Those "dullards" may not have your classy credentials but their chances of succeeding are better than yours. There's a lot to be said for sticking to a situation and gutsing it out.

★ ★ ★

Unsure of yourself on dates? What's right? What's wrong? Should you? Shouldn't you? Send for Ann Landers' booklet "Dating Do's And Don'ts," enclosing your request 35c in coin and a long, self-addressed, stamped envelope.

Ann Landers will be glad to help you with your problems. Send them to her in care of this newspaper, enclosing a self-addressed and stamped envelope.

Teacher Aides Attend College

Twenty-seven teacher aides from eight school districts in Delta and Schoolcraft counties are attending Bay de Noc Community College under the Education Professions Development provisions of Title V of the High Education Act of 1965.

A grant of \$12,537 is financing the program, written by Joseph Hampton, educational consultant of the Delta-Schoolcraft Intermediate School district. Instructors are Albert Piquette and Michael Young. The program includes instruction in child growth and development, general clerical and office machines and classroom management.

Picnics Are For Sunday And Every Other Day

By VIVIAN BROWN
AP Newsfeatures Writer

Pack a picnic in your old kit bag and eat out every night of the week.

If you haven't learned to eat outdoors in summer, you are not really trying. Al fresco dining can make summer more than a two-week adventure with pay.

Eating outdoors has become a way of life for most Americans—even apartment dwellers find ways. It gets the family out of that old meat, vegetable, potato routine, "set the table," and "who's turn is it to wash dishes."

Pitch a barbecue in the back-yard, and if you don't have one, seek parks and beaches near your home. A nice shady tree in any quiet spot will provide a delightful umbrella for a family picnic. Enterprising types may find their way to an apartment roof, if it is the only spot available. (Cook downstairs and lug the food upstairs.)

The man of the family may put up a fuss about traveling to a picnic spot after a long hard work day, but if you get him there once, and make everything pleasant, he'll like it.

dog cart, but it's expensive. It has a red, orange and yellow striped umbrella and is equipped with a propane gas heating unit. In addition to a cooking area there is a compartment for bottles, food and so on.

Picnic plate holders in natural rattan are inexpensive and keep paper plates steady when you are trying to use a knife.

There are portable gazebos available designed to bring shade to sunny locations. The large 15 by 13 ft. awning with a pitched roof-like top will give you all the shade needed. You prop the steel tube framing into the ground like a beach umbrella. (It is heavy). An ingenious do-it-yourselfer might be able to make a similar awning screen by using waterproof materials and galvanized rods. It must be taken down when the weather gets rough.

Outdoor cooking equipment and tote bags can be found in every size and price bracket.

There are picnic packs that contain ice coolers and aluminum stack pans in a compartment, there are fancier wicker baskets with plastic plates, cups, stainless flatware, sandwich boxes and jars, vacuum bottles.

Many families tote ordinary inexpensive insulated coolers to beaches and parks, putting ice in plastic bags to increase the efficiency of the cooler, and to use later for the cool drinks. Inexpensive containers of styrofoam or similar material permit one to load an entire dinner. One revealed cartons of home prepared potato salad, cole slaw, cucumber sandwiches, hamburger patties. (The mother prepares a whole week's food, puts it in the freezer and packs it in the cooler. At picnic time it is thawed and ready to eat or barbecue.)

Many people lug hibachis or folding grills and picnic tables to picnic grounds where they cook in fire-permitted areas. If you can't cook, cold fried chicken or a salmagundi (cold meats and vegetables) can be delicious.

Many parks have outdoor grills, picnic benches and tables. If you get there and it is crowded, you can have your picnic on the tail-gate of the car.

Backyard barbecues have become popular. The hibachi has grown legs (to accommodate the man who didn't like to bend down) and there are new style grills — round and ceramic glazed, Chinese red or avocado green and colorful enough to add zest to the idea.

Fireplace grills can do double duty outdoors. One has a long rod that may be stuck into the ground or sand. If you don't have a grill, the oven rack may be set on cinder blocks, stones or other props.

Fancy new grills include a new rococo one that matches the rococo garden furniture that is again popular. Many new charcoal cookers have electric rotisserie units to accommodate people who have equipped their terraces with electric plugs. One barbecue unit is a charcoal oven on which you can roast, fry or broil foods.

A new fun idea is a real hot

Eagle Leaves Costly Junk

SPACE CENTER, Houston — (AP) — Two Apollo 11 astronauts leave behind one of the most expensive junk yards in the universe when they lift off from the moon today.

They discarded almost \$1 million worth of cameras, tools and breathing equipment up there.

The cameras included the black and white television camera that captured their moon walk for the world. This camera cost the National Aeronautics and Space Administration \$250,000.

Also in the litter—a Kodak worth \$50,000 and a Hasselblad camera that cost \$11,176.

After returning to the moon lander's cabin, the astronauts opened the hatch and dumped the back packs which kept them alive during their walk.

\$300,000 Each

Each of these units, called the Portable Life Support System,

cost NASA \$300,000.

Moon tools designed especially for the astronauts added to the junk pile.

Tongs, a scoop, a long-handled hammer, an extension handle and other items were dropped when the spacemen were through with them. These tools cost \$45,000.

Largest item to be left was the descent stage of the lunar module. NASA is reluctant to put a cost on this two-ton piece of metal since it's only part of a lunar module that cost \$41 million.

Even if the spacecraft stage hadn't been left on the moon, it could never have returned to earth: it has no heat shield.

An American flag was left on the moon. The space agency doesn't know how much it cost and doesn't want to.

NASA bought a large number of flags from different manufac-

turers, a spokesman said, and then removed all labels. One was selected at random.

Random Flag

"We've no idea which one is up there," said the spokesman. "This was so no company could make a big thing of their flag being on the moon."

A silicone wafer bearing electronically-reduced messages of goodwill from 78 countries cost NASA nothing. A private firm

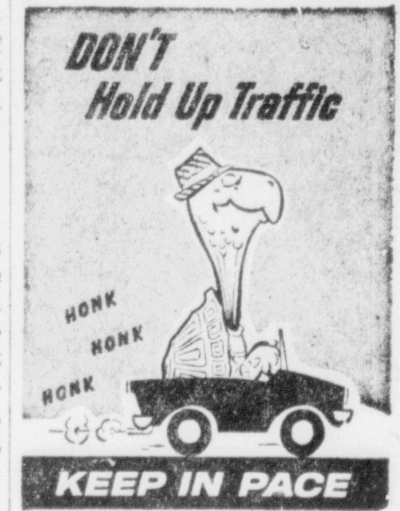

produced it at no cost to the government.

A plaque bearing the autographs of the astronauts and of President Nixon couldn't be priced. It was made in the metal shop at NASA of materials already at hand.

Obituary

JOSEPH H. PETERSON

Complete funeral services were held Saturday at the Skradski Funeral Home with Carl Glaseur officiating. Burial was in the family lot at Limestone Cemetery. Pallbearers were Edwin and Pat Viaw, Carl Carley, Joseph Tuftnell, Robert Holster, and Tom Blackley.

American Legion Endorses ABM

DETROIT (AP) — The Michigan department of the American Legion has endorsed the antiballistic missile (ABM) system as the best method to deter a nuclear attack on the United States.

More than 1,000 delegates to the weekend meeting in Detroit voiced strong approval of the pro - ABM resolution while only a few dissented. Another resolution favored the government's policies and actions in the Vietnam War. Another denounced campus disorders and pledged support to law enforcement agencies involved in disorders.

"It has been determined that the ABM system will best serve the nation against enemy nuclear attack," the resolution stated. "The ABM is a defense measure and should eliminate the spiraling of the arms race with the Soviet Union."

"The government of the United States wants to do only that which is necessary for our national defense."

Astronauts Get No Overtime Pay

SPACE CENTER, Houston (AP) — The Apollo 11 crewmen are all getting more money this month than before, but it has nothing to do with their moon adventure.

A civil service raise July 13 boosted civilian astronaut Neil Armstrong's pay from \$27,401 to \$30,054 annually. And a military pay raise which took effect July 1 increased Air Force Col. Edwin E. Aldrin Jr., from \$18,623 to \$20,607 and Air Force Lt. Col. Michael Collins from \$17,148 to \$18,648.

They will get no overtime pay for the holiday President Nixon has declared for federal employees on Monday, moonwalk day.

Armstrong is in a civil service bracket exempt from overtime and the military doesn't pay overtime.

If you get the right countries you can win enough to visit them.

You don't need a passport to play and all you need is a little luck to win.

Each time you go to any participating Mobil dealer, you get a miniature flag of a foreign country. You don't even have to buy anything.

Get the right flag, and you can be an instant winner. Or you can win by collecting them in sets.

There are thousands of prizes, ranging from 50¢ to \$5,000. Money could really be the name of the game.

There's information about the country on the back of each flag. So even if you don't spend your winnings on travel, you'll have something exotic to remember.

Here's hoping!

'Bomber' Sniffs Out Marijuana

DETROIT (AP)—That grass sniffing dog, Bomber, has put a crimp in the Detroit-area pot business.

The 3½-year-old German Shepherd, trained to smell marijuana, has detected some 30 hidden caches of the illegal smoking substance since October, according to the Criminal Intelligence Division of the Wayne County Sheriff's Department.

CID has seized marijuana valued at \$2 million since it was formed 10 months ago. One result of the antigrass movement in the Detroit-area has been a shortage of marijuana and a resultant inflated price, authorities said.

Marijuana has become so scarce in the area that State Police undercover agents have been buying increasing amounts of phony pot—tea, oregano and ordinary grass.

Detroit police report they have already seized about as much marijuana so far this year as for the entire year of 1968. Suburban police also report similar results along with State Police, county sheriff's departments and federal agents.

However, police say, with all the efforts they estimate they stop only 10 to 15 per cent of the marijuana coming into the city. The stronger effort has forced pushers to grow their own grass, police say.

The pot-sniffing dog was trained for Detroit after successes with dogs on the West Coast. The dog can detect the illegal weed when it is hidden in luggage, purses, shipping crates and anything else through which the odor will pass.

Metro Airport is a favorite entry point for marijuana.

Trustee Blasts Student Fees

EAST LANSING (AP)—A Michigan State University trustee Friday sharply criticized the school's imbalance in assessing charges for graduate and undergraduate students.

Warren Huff, D-Plymouth, said the difference between assessed costs and "the actual cost of handling students is ridiculous."

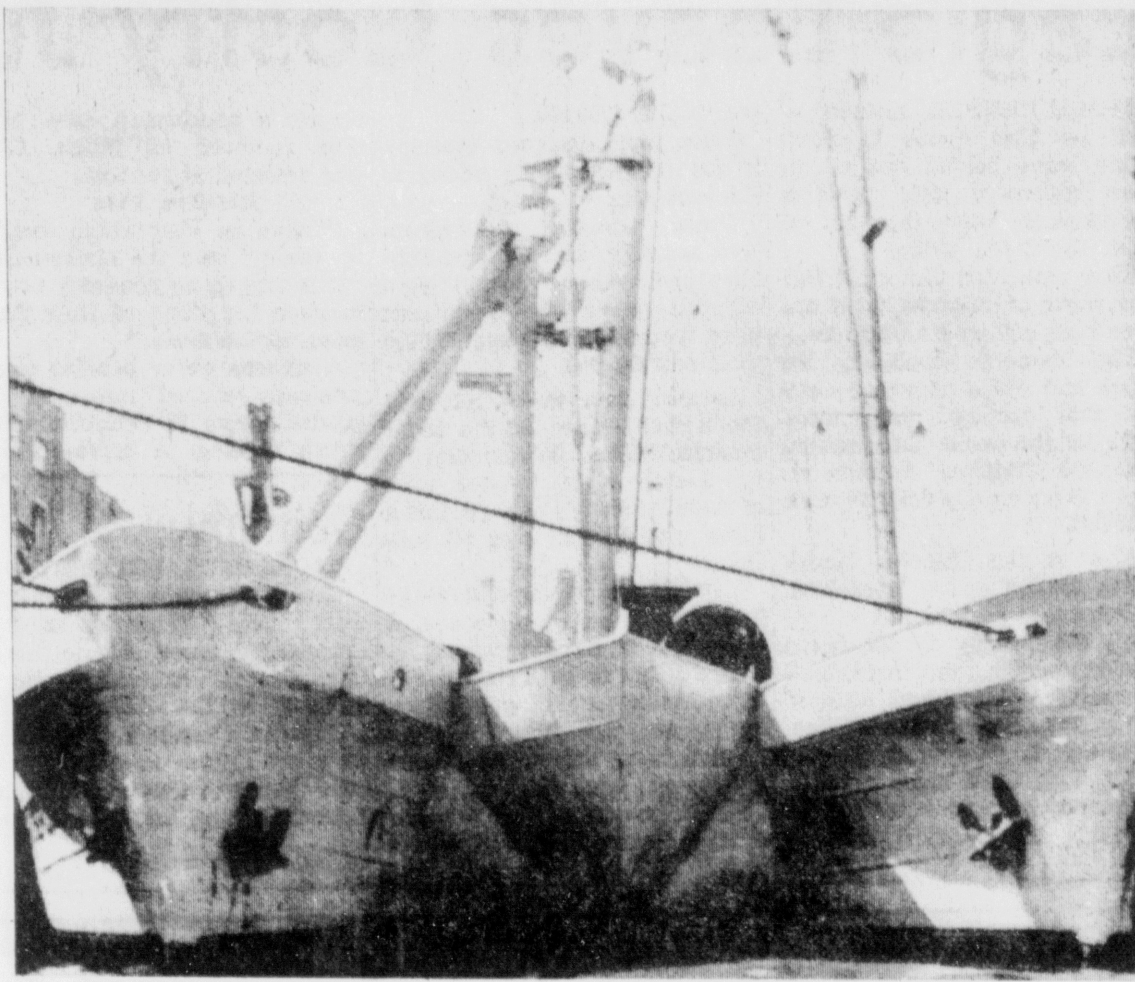

He said undergraduate students are charged more than is necessary in order to fund a growing graduate program.

"We have actually increased the fees, particularly to the freshman and sophomores," he said, "because this is where we make the most money. We are receiving from the state of Michigan almost \$2,000 per freshman and it costs less than that to process him, so we are assessing him to fund the graduate program."

Undergraduate students, especially undergraduates, usually attend large lectures, where one instructor teaches as many as a few hundred students, while most classes for graduate students are very small.

Huff said the reason for the "gross inadequacy" was that the state never funded MSU's graduate program the way it did the University of Michigan's and MSU was trying to make up the difference by taking it out of the pockets of freshmen and sophomores.

He said he had no immediate solution but thought the fee structures should be looked into.

NOT THE SLEEKEST looking vessel around, this three-in-one ship, a working trimaran, is probably one of the most stable. It is the Dutch ship, Gloria Siderum loading cargo in Hamburg, Germany. Outside hulls are joined by new hull in the middle. (AP Wirephoto by Cable from Hamburg)

Thermal Pollution Meet Constructs Battle Lines

TRAVERSE CITY (AP)—Gov. William Milliken's conference on thermal pollution seemed less an opportunity to find new ways to utilize waste heat than a forum to draw future battle lines between conservationists and electric utilities.

In his opening remarks, Milliken said, "heat is a very valuable commodity and waste heat is actually wasted energy."

"In the long run, our environment would be better served if the waste heat could be further employed and the energy harnessed for supplemental purposes."

Instead of exploring means of utilizing the waste heat created by nuclear and fossil fuel generating stations using lake water for cooling, most speakers concentrated on reviewing existing knowledge.

Conservationists warned that aquatic life is extremely sensitive to minor temperature changes. Temperature fluctuations trigger reproduction processes in fish, stimulate migration and determine in large part the type of aquatic life that is present.

The millions of gallons of water warmed from 15 to 20 degrees and spewed into the Great Lakes each day in the early 1970s by generating stations could radically upset the aquatic balance of life and alter weather patterns, conservationists warned.

Spokesmen for electric utilities pledged to minimize the effects of thermal pollution and cited the lack of scientific research to prove that the Great Lakes cannot absorb the waste heat created by the use of lake water to cool generators.

Construction of artificial lagoons for water sources or building cooling towers would eliminate the possible hazards caused by the heated water, utility spokesmen said.

But the high cost of building a cooling tower or lagoon would hike the cost of electricity. In addition, cooling towers would create possible mist and fog problems in the areas in which

they are constructed, they added. Very little time was spent actually exploring means of utilizing the heated water.

Part of the problem, explained Dave Williams, chief engineer and vice president of the American Electric Power Co., is that the warm water being spewed back into the lakes is a "very low grade heat."

One person suggested that the heated water be piped underground to warm the earth and insure a longer growing season. Williams said, but this presently is impractical because of the low equality of the heat.

Heat Beaches

Others have suggested that the water be used to heat beaches along the Great Lakes. But some scientists say this also would be impractical because most of the heat would quickly escape into the atmosphere.

"A significant point in the dissipation of this heat is that the higher the temperature of the water returned, the faster the heat will be dissipated to the air and the sooner the water will be returned to its natural temperature," said Williams.

Perhaps the person who most closely adhered to Milliken's suggestion was John Cairns Jr., of the Virginia Polytechnic Institute.

Cairns suggested that America switch from a "frontier psychology" where problems are treated in isolation to a "space-earth psychology" which brings into play many interrelated factors.

Speaking of the conflict between conservationists and industrialists, Cairns said, "it's no longer possible for either group to have what they want."

The seven who died in the crash late Friday near Camden were identified as: Mary Stevens, 27, Lyons, Ohio; Mrs. Stevens' son, about 4; Laura Stam- baugh, 18, Fayette, Ohio; Dennis Woods and his wife Patricia, both 18, Reading; Billie Joe Conley and his wife Lorna, Edon, Ohio.

Killed In Quarrel

PONTIAC — (AP) — Police blamed a family quarrel for the death Sunday of Carr Alexander, 25, in his Pontiac home. Investigators questioned his wife, Loretta, in connection with the fatal shooting.

Man Cited For Playboy Killings

BOSTON (AP) — Michael C. Ware, 25, of Doraville, Ga., faces arraignment Monday on charges that he murdered two Boston Playboy Club employees during an unsuccessful holdup.

Police said a telephone tip led to the arrest of the boyish-looking Ware Saturday in a telephone booth in Boston's old City Hall.

Roger Howes, 28, of Quincy, the club's assistant manager, and Robert Hershman, 28, of Brookline, were shot to death early Friday as they were closing up the nightspot.

Richard Ellis, 28, of Grosse Point, Mich., who was in the building with his cousin Howes, said the would-be robber shot Howes when he was unable to give him the combination to the safe.

Hershman was shot when he went to investigate. Ellis said he was allowed to go free after convincing the gunman he was not a club employee and had no knowledge of the safe combination.

Police, who said Ware offered no resistance when arrested, quoted him as saying: "I knew you'd come."

He was telephoning his wife at the time, police said.

The telephone tip came from a caller in Atlanta, Ga., who also mentioned the \$10,000 reward which Playboy Club president Hugh Hefner had offered to anyone who could give information leading to the arrest of the slayer, police said. Police did not identify the tipster.

Ware, a native of Ocala, Fla., was held without bail.

Nab Milwaukee Robber Suspect

FLINT (AP) — Ralph C. Stearns, 66, wanted in connection with Friday's \$150,000 robbery of a bank in the Milwaukee, Wis., suburb of Oak Creek, was arrested Sunday in Flint.

Edward J. Hayes, special agent in charge of the Milwaukee FBI office, said Stearns was taken into custody by special agents of the FBI and officers from the Flint Police Department and Michigan State Police.

Stearns has been charged by federal authorities as being one of the participants in the hold-up of the Tri City State Bank.

A native of Morrison, in Brown County, Wis., Stearns' last known address was Flint. He had been identified from photographs and was charged Saturday.

The two bank robbers entered the bank shortly before noon on Friday and fled just four minutes later with one of the biggest loots in Milwaukee history.

Fungus Threat To Cherries

MUSKEGON (AP) — Michigan's tart cherry harvest — now in a crucial phase — may be severely damaged in the Mason-Oceana and Grand Traverse areas as hot humid weather this week boosted a fungus infection in the orchards.

Present damage estimates of the shothole fungus disease which is rapidly spreading could go as high as 40 million pounds in these areas, according to William MacLean, district horticultural agent.

This could mean a loss of over \$3 million, he said. The total estimated harvest this year was to have been 134 million pounds.

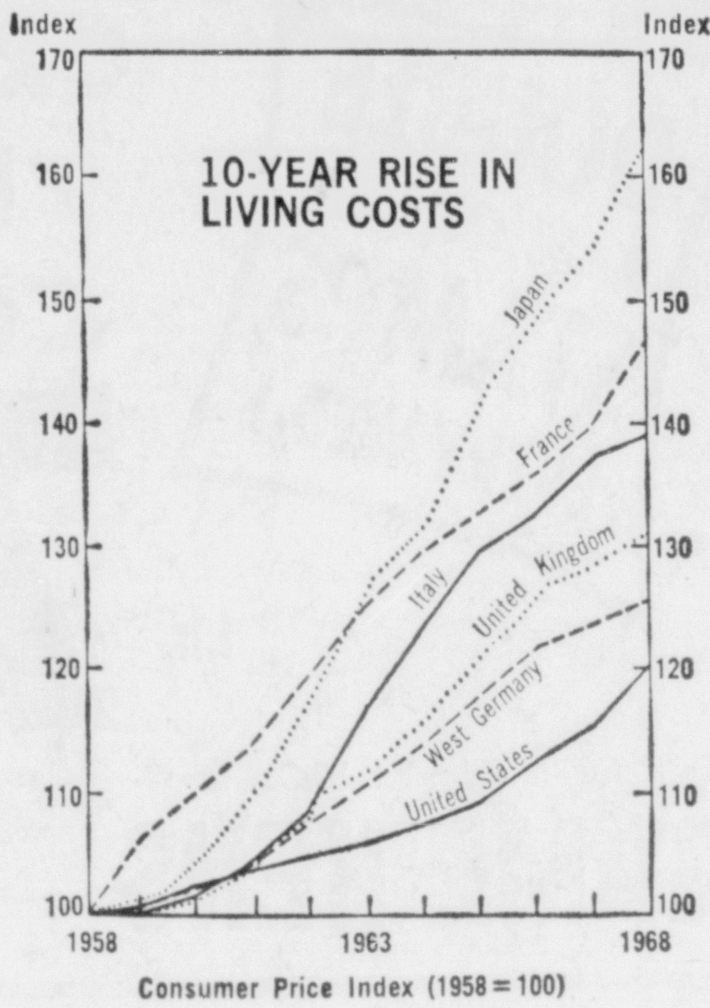

Three out of four orchards in the Traverse area are rapidly being denuded by the shothole disease, the extension agent said.

The major loss, just beginning to show up in the Mason-Oceana fruit belt, will come in the ensuing season since it requires at least one full growing season to replace the leaves, MacLean said.

The threat of the disease comes at a time when the state's cherry growers are trying to deal with an 8 cent per pound price this year — a drop of over 40 per cent from last year.

Alexander Graham Bell never lost his interest in aviation, and he proved to be remarkably prophetic about it. In 1914, for example, the inventor said, "I have no doubt that, in the future, heavier-than-air machines of great size and different construction from anything yet conceived of, will be driven over the earth's surface at enormous velocity, hundreds of miles an hour, by new methods of propulsion."

It's your ECONOMY

INFLATION HITS MANY COUNTRIES — Rising prices in major countries reflect the growing demand everywhere for capital because of population growth and the quickening pace of technological progress. Over the past 10 years consumer prices rose 20 per cent in the United States, but even more in other countries — 64 per cent in Japan, 47 per cent in France, 39 per cent in Italy, 36 per cent in the United Kingdom, and 25 per cent in West Germany. Inflation, moreover, piles up as time goes on. A continuous rate of inflation of even 2 per cent a year amounts to a 40 per cent erosion of purchasing power in 25 years. Rising prices impose a cruel and discriminatory tax on savers and families with fixed income. This is now prevalent in all industrialized countries. In underdeveloped countries the rate of inflation is even faster and crueler.

Wisconsin Fights Shoreline Erosion

WASHINGTON (AP) — Legislation that would help Wisconsin property owners fight shoreline erosion along Lake Michigan was proposed Saturday by Sen. Gaylord Nelson, D-Wis.

Such erosion has become a problem of major proportions, Nelson said, adding that in Kenosha, Wis., alone, where the problem is especially severe, damage this year is estimated at \$200,000.

Nelson's bill would provide new federal help by authorizing the Army Corps of Engineers to provide assistance to private property owners for coordinated erosion control projects. The Army engineers now are authorized to provide help only when public property is involved or a disaster has been declared.

A similar bill has been introduced in the House by Rep. Henry Schadeberg, R-Wis.

Millions of grunion, the tasty fish that spawn in the beach sand of Southern California in early summer, seem to understand sea tides. They wiggle onto the wet beach just after the once-a-month high tide so that their eggs will have time to develop in the sand while safely out of reach of the sea.

Debate To Continue On Space Program's Value

NEW YORK (AP) — Temporarily suspended as America watches the latest space adventure is the argument about whether or not the program has been worth the money. But it will resume, for certain.

The spending of \$24 billion on any one program, as is the case, is enough to put doubts in the minds of millions of Americans. But the space program has an increasingly strong case.

One of the most convincing and tangible arguments in favor of the National Aeronautics and Space Administration is "spin-off," or the use in other human endeavors of the technology and discoveries of space studies.

In Houston, for example, Dr. Denton Cooley monitors heart transplant patients with a device developed by NASA. In White Plains, N. Y., General Foods improves its products with a NASA-developed computer program.

New Products

These are among the first of thousands of products that conceivably could come into use in American industry or be used more directly in aiding individuals. But they are only the beginning.

"There isn't any question that the technologies of the 1960s will be the practical realities of the 1970s," said Ronald Phillips, director of Technology Utilization for NASA in a telephone conversation the other day.

The transference of technology from one field to another has sped up greatly since the space program. More startling is the shrinking time gap between basic research and practical application.

Scientists once estimated that 50 years elapsed from the time basic research began until a useful product was developed. This was reduced to 30 years and then 18 years, and then even less in this generation.

Reliability

"Now we say conservatively," Phillips said, "that much technology reaches production in 8 to 10 years and we have heard of many examples in which only 2, 3 or 5 years elapsed."

Phillips observed that if the

same 99.99 per cent reliability of the previous Apollo shot were built into automobiles they would run 100 years without a mechanical problem.

The space program has also helped to integrate various disciplines, medicine and physics for example, that could conceivably lead to solutions of human problems that in the past eluded explanation.

It is the products, however, that demonstrate immediately

Undersea Pinger

—A "sight switch" which enables paralyzed people to control wheelchairs, signal for help, turn appliances on-off by simple eye movements.

—Computer programs, now being used by hundreds of companies, for "optimizing" products and services. That is, that is, the programs permit companies to find the most productive arrangement of many variables. Cost \$300.

—The undersea pinger. This battery-powered device was developed to help find test rockets and capsules, but now is used for plotting ocean currents and the movement of fish.

—A new class of high strength plastics, a fire retardant foam that can be used as a building insulator, a spray-on electrode that permits ambulance attendants to monitor hearts and transmit electrocardiograms.

SANFORD J. PETERSON of Menominee has been named sales representative for President Homes Co. Peterson, owner of Sanford's Real Estate Agency, Menominee, and his staff of salesmen will cover eight counties, including Menominee, Delta, Marquette and Dickinson in the Upper Peninsula.

WANTED ROUGH POSTS

We will be in the market for posts all through the summer months. Please contact us for prices if you do not already have them.

HABITANT FENCE INC.

What's a nice car like you doing in a sale like this?

Pity the poor car that's loaded with banners, signs and stickers at model closeout time. You'll never find one of our beauties plastered with promises. It's so unnecessary. When all a car buyer really wants is straight fact. So without any ballyhoo, here's what we have.

Year-end prices. To meet... or beat... the competition. Great selection. Whether it be Chrysler or Plymouth, we probably have just what you want—in stock. Low pressure. The year-end shopper is important to us, and we don't forget it; you get the best in courtesy and service. Stop in and check our facts. And help end pushy year-end sales.

Your Chrysler-Plymouth Dealers tell it like it is.

Veldman Heads American Legion

DETROIT (AP) — A 47-year-old veteran of European Army combat campaigns in World War II has been named State Commander of the American Legion of Michigan.

Elected Sunday at the 51st annual state convention in Detroit was F. Gerrit "Gary" Veldman of Muskegon. He was awarded the Bronze Star and Purple Heart decorations as a member of the 70th Infantry Division during World War II.

Space Agency Takes Pictures

BARSTOW, Calif. (AP) — Like photographers around the world, U.S. space agency took photographs of man's first steps on the moon off a television screen.

But the National Aeronautics and Space Administration pictures were much clearer. They were taken off a special monitor at the Apollo tracking station at the Goldstone Communications Complex 50 miles north of here while the transmission was being converted for relay over commercial television.

The spokesman said NASA used a still camera whose shutter was synchronized to the scan rate of a special monitor screen. Home television was less clear because conversion to its faster scan rate leaves small white bars between the picture lines.

An estimated 500 pictures were taken at Goldstone.

Try Policemen In Negro Beatings

PONTIAC (AP) — A seven-member civilian police trial board will investigate charges that 10 white policemen beat two Negroes while arresting them, Police Chief William K. Hangar said Saturday.

Hangar, who has been conducting his own investigation of the incident, said he would announce results today. The policemen have not been suspended.

A formal request for the trial board probe was made by the Oakland County branch of the National Association for the Advancement of Colored People. Hangar said the trial board would probably complete its investigation within 15 days.

Neil's Sister Busy 'Pushing Buttons'

WINTER HAVEN, Fla. (AP) — June Hoffman of Menominee Falls, Wis., said anxiety turned to pleased relief Sunday as she watched the televised arrival of her brother, Neil A. Armstrong, on the moon's surface.

"I was pushing every button with them and I felt every emotion imaginable," Mrs. Hoffman related after Apollo 11 astronauts Armstrong and Edwin E. Aldrin Jr. reached the moon.

Mrs. Hoffman, a mother of seven, is visiting relatives in Winter Haven.

"We were all on the edge of our chairs, watching television," she said. "We are all pretty excited right now, pretty pleased, and breathing a little easier."

Mrs. Hoffman's oldest child, Jayne, 14, said: "I am very happy now. But I can't wait until my uncle gets back here."

The family said another daughter, Jodie, 6, ran to her mother from a TV set in another room and declared during the descent: "Mommy, come watch our TV. They are even closer on our set."

PHOTO SHOWS both sides of commemorative medal designed in honor of man's first flight to the moon and the men who are to land there — the Apollo 11 astronauts. The medal was designed by New York sculptor Ralph J. Menconi, is 2.5 inches in diameter, and is being struck in both silver and bronze. Menconi said he has received over 200 requests for the medals from collectors already. (AP Wirephoto)

Contamination Worries Hornet

ABOARD USS HORNET (AP) — A U.S. space agency official says he is still trying to determine how far away this recovery ship must be when the Apollo 11 capsule lands in the Pacific to insure that the 2,200 people aboard, including President Nixon, are safe from possible lunar contamination.

Existence of the problem arose at Thursday news briefing at which the ship's commander, Capt. C. J. Seiberlich, said one purpose of daily recovery training exercises was to establish ground rules for positioning the Hornet at splashdown time early July 24 "to avoid possible contamination of the ship."

Asked how the tightly sealed capsule could endanger a ship expected to be at least two miles away when it hits the water, Dr. Donald Stulken of the National Aeronautics and Space Administration said that air vents on the Apollo craft open

First Step

SPACE CENTER, Houston — (AP) — The National Aeronautics and Space Administration set the exact time of Neil A. Armstrong's first step on moon soil as 10:56:20 p.m. EDT.

Owner Escapes Bombed Boat

SOUTH HAVEN (AP) — A houseboat was bombed and damaged extensively in the Black River Friday night, but its owner escaped injury.

Two South Haven policemen reported hearing the explosion and seeing a person run from the scene and jump into a moving automobile about 10:15 p.m. at Georg Marina.

Owner David Viele, 27, of Grand Rapids, aboard the recently purchased \$15,000 craft, was not injured, although the interior was heavily damaged, some deck damage done and two small boats tied up nearby damaged.

Viele said he was looking in the refrigerator door at the time and didn't get a scratch, the door apparently having shielded him.

The two policemen said the person they saw managed to escape before they could get to the scene. Detective Lewis Smith of the South Haven State Police Post was assigned to investigate the bombing.

Hart Predicts Key ABM Vote

DETROIT (AP) — A key vote in the Safeguard antiballistic missile (ABM) program is scheduled for Tuesday in the U.S. Senate, according to Sen. Philip A. Hart who has opposed the project.

Hart said Saturday in a Detroit speech the ABM project, now envisioned initially for two sites in the western United States, could be stopped with a favorable vote on a proposed amendment he backs.

The amendment calls for a one-year ban on deployment of equipment while providing funds to continue research and development.

Women's Activities

Jane K. Lindenthal, Peter Bloomfield Wed

Jane Kathryn Lindenthal and Peter Samuel Bloomfield of S. Pasadena, Calif., exchanged wedding vows during a ceremony performed Saturday, June 28 at the Athenaeum of the California Institute of Technology.

Dr. Alvin Rudisill officiated at the double ring nuptials at 8 p.m. The bride is the daughter of Mr. and Mrs. George D. Lindenthal, 1446 LaLinda Drive, Lake San Marcos, Calif. and parents of the bridegroom are Mr. and Mrs. Sidney R. Bloomfield, 64 Orlando Ave., Winthrop, Mass.

Honor attendants for the couple were Mrs. Patricia Armstrong of Pasadena and Ronald Constable of LaCanada, Calif.

Also attending the bridegroom were Stanley Bloomfield, brother of the bridegroom, Steven Baehr, cousin of the bridegroom, John Lindenthal, brother of the bride and Yance Hirschi.

Organza Overlay

The bride selected for her wedding a floor length fitted sheath gown with an overlay of candle glow organza styled with a raised boat collar, puffed sleeves and a chapel train. French lace appliques adorned the front of the gown.

A pillbox cap headpiece with French lace trim held her floor

length Mantilla veil and she carried a nosegay of white roses with pink lilies of the valley.

Pink Gown

The honor matron was attired in a floor length gown of pink organza fashioned with a high neckline, puffed sleeves and a gathered skirt. She carried a nosegay of pink daisies.

For her daughter's wedding, Mrs. Lindenthal wore a pastel green jersey knit with beige accessories and Mrs. Bloomfield chose a white walking suit with aqua blue accessories and both mothers were presented white rose corsages.

Champagne Dance

A champagne dance was held at the Athenaeum. After a wedding trip to San Francisco the couple will reside at 406 Monterey Road, S. Pasadena, Calif.

The bride is a graduate of the University of Southern California where she received her B. A. degree in Philosophy and Religion. She also served as president of Women's Halls Association. Mr. Bloomfield received his B.S. degree in Economics from the California Institute of Technology and was a member of Ricketts House.

Mark St. John On Concert Tour Of Orient

Mark A. St. John, 19, son of Mr. and Mrs. Harold A. St. John of Granada Hills, Calif., is presently on a concert tour of the Orient with the "Certain Sounds," a vocal and accompanying group from the First Baptist Church of Van Nuys.

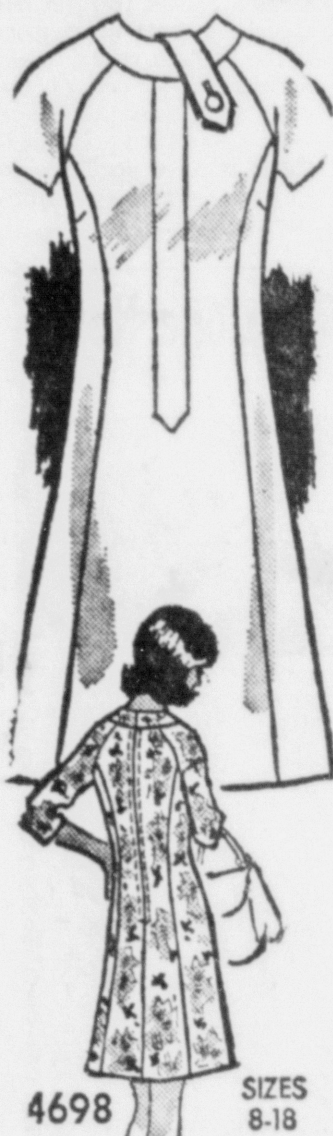

Mark and his parents are former residents of Escanaba and Mark is the grandson of Mr. and Mrs. Fred Raymond formerly of Escanaba.

Mark, a trombonist, graduated from Granada Hills High School in June of 1968 and has completed his first year as a music major at Valley College in Van Nuys.

He has studied trombone for nine years and has been a member of the Claudhopper and San Fernando Valley Youth Bands for six years. He is also a member of the San Fernando Valley Youth Symphony.

The "Certain Sounds," will spend five weeks in the Philippines, China and Japan with concerts scheduled in all three countries.

"MISS OHIO" for the "Miss America" beauty pageant is Kathy Baumann, 19, from Independence.

ANNOUNCEMENT IS MADE by Mrs. Henning Peterson Sr., 1112 5th Ave. S. of the engagement of her daughter, Mary Ella, to Thomas M. Kramlinger, son of Mr. and Mrs. Bernard Kramlinger of St. Paul, Minn. The bride-elect is a 1965 graduate of Escanaba Area High School and will graduate from Northern Michigan University on Aug. 2. She is majoring in social work. Her fiancé is stationed with the U. S. Coast Guard at Escanaba. He is a 1964 graduate of Washington High School and a 1965 graduate of St. Paul Vocational School. (Preston's Portraits)

BODYWARE, A combination of Arthurian armor and costume jewelry, was introduced at a recent fashion show in New York. Model, right, wears a chain vest of costume jewelry. Model at left, during show by designer Kenneth Jay Lane wears bodywear accessories of bib-necklaces, wide belts and cuff bracelets. (AP Wirephoto)

Proud Apollo Wives Tell Their Reactions

SPACE CENTER, Houston — (AP) — No different from the rest of the nation, the proud Apollo 11 wives struggled to find enough adjectives to express their feelings for their men on the moon.

"The evening has been unbelievably perfect," Mrs. Neil Armstrong said today after watching the moon explorations of her husband and Edwin E. Aldrin Jr. "It is an honor and privilege to share with my husband, the crew, the Manned Spacecraft Center, the American public and all of mankind this magnificent experience of the beginning of lunar exploration."

Earlier, Mrs. Armstrong expressed her feelings more simply. "I was tremendously excited," she said.

"It was hard to think it was real until the men actually moved," said Mrs. Aldrin. "I felt I was looking at another simulation."

After the moon touchdown Mrs. Aldrin said she wept "because I was so happy."

"I thought it was fantastically marvelous," said Mrs. Michael Collins, whose husband flew a moon orbit in the command capsule while the two other crewmen visited the lunar surface.

There In Spirit
"Don't you think he is with them there in spirit?" Mrs. Collins replied when asked if her husband was disappointed because he was not in the landing party.

All Apollo families planned to sleep late today before the next critical phase, blastoff from the moon.

Richard Flath Taken By Death

Richard O. (Dutch) Flath, 79, of 504 S. 5th St., died at 3:20 p.m. Saturday at the St. Francis Hospital.

He was born Jan. 27, 1890 in Escanaba and was a member of St. Stephen's Episcopal Church, the VFW and the American Legion. Mr. Flath also served at Argonne, during World War I.

Since 1913

He took over the Coliseum, located at 1st Ave. S. and 4th St., community amusement center for many years, in 1913 when the late P. M. Peterson retired. He operated the skating palace and amusement center until 1959 when it was purchased by the Home Supply Co. of Escanaba for use as a warehouse.

Popcorn Wagon

Mr. Flath has also operated a popcorn wagon in and around Escanaba since 1926 and recently sold it to a man in St. Louis, Mo., who intends to restore it to its original condition for display in Disneyland.

Skating Program

He was also associated with the Webster School Roller Skating program as a community service, from 1960 through this year. He worked in conjunction with the Rev. Erland Carlson and Louis Die-drich in this program.

Richard (Dutch) Flath

Survivors include two daughters, Mrs. Edward (Paula) Hurley of Escanaba and Mrs. Donald (Ellen Marie) Miller of Milwaukee; three grandchildren: one brother, Emil of Escanaba and two sisters, Mrs. Elizabeth Gunderson and Mrs. Clarence Lippold of Escanaba.

Visitation Today

Friends may call at the Anderson Funeral Home from 4 to 9 p.m. today and military rites will be conducted at 8 p.m.

The body will be taken to St. Stephen's Episcopal Church at 10 a.m. Tuesday where services will be held at 11 a.m. The Rev. Ben Helmer will officiate and burial will be in Gardens of Rest Cemetery.

Lover's Moon Never Be Same

(Continued From Page One)

tion with awe. Australian newspapers highlighted their "kangaroo" movements.

For many people in the Asian subcontinent and Africa, the Voice of America broadcast was the only means of hearing about the two astronauts.

Thousands of Europeans without TV sets spent the night at friends' houses to follow the lunar adventure.

In Fife, Scotland, a boy born Sunday night was to be named Neil Edwin Michael—the second child in Britain to be named after all three astronauts.

On British television Sunday night David Threlfall, who bet \$24 five years ago that man would set foot on the moon before 1971, received a check for \$24,000 even though Armstrong hadn't left the lunar module yet.

A spokesman for the London bookmaker William Hill, with whom Threlfall placed the bet at 1,000-1 odds when he was 26, said the touchdown was "good enough for us."

Disgusted, Thought Moon Was Heaven

By The Associated Press

As man walked the moon late Sunday, Michigan was awed and impressed.

"This is fantastic," said a 20-year-old reservations clerk for an airline. "I know it's real, but then when you stop to think . . ."

Her comments were generally typical, although there were some who lamented the trip which brought Apollo 11 to the moon with the first moon walker, Neil Armstrong.

"What benefit is it to humanity?" asked Southern Jones, 62, a Detroit who operates a business supplying packing crates to produce houses and is a part-time parking lot attendant. "I know there are things of more necessity."

"Look at the poor people in the United States...and they spend these billions," Jones said. "It looks to me like they're wasting a lot of money."

Can't Play Ball There

Jones echoed a sentiment of some Negro leaders when he said the money could have been spent better on supplying food, clothing and housing to needy families.

Miller Taylor, 25, Detroit, said he sometimes gets angry when he sees how much is deducted from his paycheck for space shots.

"You can't play ball on the moon," Taylor said. "Playing baseball is my hobby. We come out every Sunday. Anyway, I don't understand what they're doing up there and at least I understand baseball."

Bill Parris, 33, a Detroit furniture mover, said, "I think it is very important. I've always hoped to see this in my lifetime. I kind of regret not getting my education so perhaps I could have been a part of the team (on ground)," said Parris, who said he didn't feel the space program was a waste of money.

In a Detroit park shortly after the moon landing, two elderly housewives took opposite views on the value of the moon

Nahma Man Earns Medal

U.S. Air Force Capt. Harold J. Hebert, son of Mrs. Marion E. Hebert of Nahma, has been decorated with the Air Medal at Da Nang AB, Vietnam, for air action in Southeast Asia.

Capt. Hebert, a navigator, was cited for his outstanding airmanship and courage on successful and important missions completed under hazardous conditions.

Hebert, a graduate of Nahma Township High School, received a B.A. degree from Michigan State University and was commissioned there through the ROTC program. His wife, Mary, is the daughter of Mr. and Mrs. Edward Sheedlo of Nahma.

Father And Son Hurt In Mishap

GLADSTONE — A father and son were injured in a two-car accident Sunday afternoon at the intersection of Minneapolis Ave. and 13th St. in Gladstone.

Gladstone police reported that a car driven by Thomas Petr, 1615 Dakota Ave., Gladstone was headed south on 13th St., and a car driven by Timothy Calahan, Rapid River was traveling east on Minneapolis when they collided at the intersection.

According to the report, Petr and his 21-month-old son were slightly injured in the collision. They were treated at a local clinic and released.

Calahan was not injured. No tickets were issued.

Kennedy Charged In Fatal Accident

(Continued From Page One)

have no statement to make in connection with the accident for the time being.

Dr. Robert D. Watt of Hyannis Port, who saw the senator at his home Saturday afternoon, said Kennedy received "a blow on the head, but he seems to be all right." He said he prescribed a few days of bed rest and added that he had spoken by telephone with Kennedy Sunday and believed him to be improved.

Meanwhile, Dunn Gifford, a Kennedy aide, obtained the necessary release papers Sunday and arranged to have Miss Kopechne's body flown to Pennsylvania for burial Tuesday in Larksville. There was no autopsy, but blood samples were taken from the victim and sent to the state police laboratory for analysis.

In Berkley Heights, N.J., Mrs. Joseph Kopechne, the victim's mother, said her daughter's "admiration of the Kennedys was what took her to Washington to begin with."

"She was pretty well wrapped up in politics," Mrs. Kopechne added.

A GIFT CERTIFICATE on K. I. Sawyer Day Saturday is presented by Mrs. Robert (Juanita) Kroehmer, center, on behalf of the Escanaba Area Chamber of Commerce to Mrs. John Thompson, right, who along with her husband, a major at the Air Base, Mrs. Robert Edinger, left, and her husband, also a major, and Capt. and Mrs. Arthur W. Warner Jr., were guests of the chamber for the day in Escanaba. (Daily Press photo.)

Cubans Welcome Russian Fleet

HAVANA (AP) — Thousands of Cubans lined Havana's waterfront Sunday to cheer the arrival of the first Soviet naval force to visit Latin America.

It took the seven-ship task force almost two hours to steam into the harbor and to Cuban navy headquarters for welcoming ceremonies, but the crowd waited patiently under the glaring sun.

A band on board the first ship, a rocket cruiser, played the Cuban anthem as the squadron passed Morro Castle at the harbor's entrance. Cannon from La Cabana Fortress bellowed a 21-gun salute as the ships moved slowly down the channel.

Following the cruiser in single file were two destroyers, two submarines, the submarine mother ship Tobot and the tanker Lena.

Soviet sailors in dress whites manned the rails and shouted hurrahs in candance as the Cuban band played.

Dr. Arch Gerlach Named President

WASHINGTON (AP) — Dr. Arch C. Gerlach, chief geographer of the U.S. Geological Survey is the new president of the Pan American Institute of Geography and History, the Department of the Interior announced Saturday.

Gerlach, a 58-year-old native of Tacoma, Wash., will serve a four-year term as head of the 41-year-old organization which is instrumental in the exchange of scientific and technical information among its 21 member countries.

Gerlach received his Ph. D. in geography from the University of Washington and has been a professor of geography at the University of Michigan and Wisconsin.

Air Controllers Plan To Resign

LOS ANGELES (AP) — Three thousand air traffic controllers at major airports across the nation plan to resign when Apollo 11 returns to earth, a spokesman says.

The prediction came in response to the plan by the Federal Aviation Administration to punish controllers who staged a nationwide slowdown last month to protest what they said was dangerous airway congestion.

Russell G. Sommer, western regional director of the 7,200-member Professional Air Traffic Controllers Organization, said Saturday that unless the FAA withdraws its punishment threat, the controllers will resign from their jobs, perhaps grounding all commercial flights.

Shaffer threatened disciplinary action Friday against air controllers who participated in the slowdown.

Indians Afraid World To End

MARACAIBO, Venezuela (AP) — The Urian Indians did not believe until the last that man would land on the moon. Now that he has, they are afraid the world will end.

"From now on, all will be evil," said Yolanda Gonzalez, a member of the Urianos, who live in a poor section of this major oil city. They are part of the Guajiro tribe, the oldest inhabitants of Venezuela.

The Urianos were skeptical as they followed the progress of the Apollo 11 mission on transistor radios and television sets.

When word came that astronaut Neil A. Armstrong and Edwin E. Aldrin Jr. had landed their lunar module, men ran through a local square shouting: "Man walking on moon!"

Then the Indians began preparing for a Chichanaya, a dance in which they pray to their ancient gods that no harm befalls mankind.

Other featured programs this week on Northern Michigan University's TV station:

Whether regular exercising can help middle-aged persons reduce the chances of heart disease is explored on "Running for Life," at 7:30 p.m. Tuesday.

Distinguished Hungarian pianist Lili Kraus performs Mozart works and discusses her selections, at 9 p.m. Tuesday.

A combination of brilliant nature photography and an eloquent script and narration by Lester Sinclair produce a "master portrait" of Charles Darwin and his historic voyage to the Galapagos Islands, at 7:30 p.m. Wednesday.

Old-line blues artists "Bukka" White, Nathan Beauregard and Sleepy John Ester perform on "Sounds of Summer," at 7 p.m. Friday. Friday's second feature, at 9 p.m., is "The Idealists," the second in a dramatic trilogy on the theme of man and his beliefs.

Burglar Caught At Victim's Home

WARREN (AP) — A 50-year-old Detroit man who was tackled as he ran from a tragedy-stricken Warren home this weekend, has been charged with burglary.

Police said Louis Reno was tackled by a 17-year-old boy as he left the home of Eugene Guenther, 42, who at the time was hospitalized with severe burns received in a boat explosion a week earlier.

Other members of the family were at a funeral home where the body of Elhel Guenther lay in state. Mrs. Guenther was fatally burned in the accident. Police theorized Reno came to the Guenther home after reading of the calling hours at the funeral home.

Astronauts Hit Moon Paydirt

SPACE CENTER, Houston (AP) — The Apollo astronauts struck paydirt in their prospecting on the moon.

Their luck especially was in finding a great variety of different rocks, which could tell much about the moon's age and origin.

They saw a curious purple rock and perhaps put it in one of the two treasure chests they are bringing home.

And they cored out a five-inch deep sample of lunar soil that "looks moist," a suggestion there might be water and so perhaps microscopic life beneath the moon's surface. But the moist, dark appearance could simply be from tight packing of fine particles of material, cautions David McKay, geologist of the Manned Spacecraft Center.

They found the crust of the moon much harder than numerous geologists and astronomers expected they would. It took work to dig out two core samples and to plant the American flag.

Like Basalt

They found rocks that look like basalt, born of volcanoes, and rocks resembling biotite, a dark colored mica that usually contains two to four per cent water. They found the surface dusty, getting their boots coated cocoa brown with it.

They set up a seismometer which soon was recording moon tremors, although these might be only from the footsteps of the astronauts, especially when they caved on the desert-like moon like kids in a playground.

If the moon still shimmies after they leave today, scientists think the ultra-sensitive instruments can tell them if the quakes come from volcanic activity, or hits by meteorites.

Incredibly calm most of the time, the astronauts performed well their role as good observers specially trained in geology.

Medically, their excursion showed the moon to be not so fearful a place as cautious planners had had to paint it.

The men surprised doctors and others by their quick adaptation to the moon's low gravity. Their energy expenditure in their tasks was within the limits shown in their earth training, said Dr. Willard R. Hawkins, a flight surgeon.

Delighted

Once, Neil Armstrong's heartbeat rose to 160 per minute, but this was called not critical, and Clifford Cliftonworth, flight director, said it occurred when he was doing his hardest labors.

There were no indications the astronauts were hit by tiny micrometeorites.

Scientists were particularly delighted that the astronauts landed in an area with a great variety of rock types, as Edwin Aldrin described it.

"Landing near a crater is an unusual opportunity to collect rock samples which come from considerable depths (thrown out by meteoric impact) in comparison to the surface rocks," said Dr. Gerard P. Kuiper of the University of Arizona Lunar and Planetary Laboratory in Flagstaff. "This is an opportunity to pick up lunar lava in a scientifically perfect spot."

Menominee, Escanaba Record Tourney Wins

Menominee and Escanaba recorded victories in Sunday's games in the District 11 American Legion baseball tournament being played at the Al Ness Field.

The Escanaba Cubs, after losing to Manistique Saturday morning, came back in the losers bracket to eliminate Schaffer by a score of 11-3 and Menominee handed Manistique its first defeat by the score of 5-2. After Sunday's play, Escanaba, Menominee, Manistique and Powers remain in contention for the district title.

Escanaba will face Manistique Thursday evening at 6, with the loser being eliminated from further tourney competition. Unbeaten Powers and Menominee will clash Thursday evening at 6 with the loser to face the winner of the Escanaba - Menominee contest Saturday at 9:30 a.m.

Escanaba rapped out 14 hits in its victory over Schaffer yesterday, good for 11 runs. Schaffer managed to get five hits off the offerings of Escanaba hurlers Tom Kangas and Jack Johnson.

Kangas went the first five innings on the mound for the Cubs to pick up the victory and Johnson mopped up for the final four innings. The two Cub right-handers struck out five Schaffer batsmen in the game.

Ken Robitaille and Dan Mylander led the Cubs in the hitting department with three hits apiece and Doug Howard and Gregg Johnson chipped in with two hits apiece. Robitaille, who scored five runs for the Cubs, and Kangas had home runs.

Ed Pach stroked a home run for Schaffer and had two hits in the game as did teammate Dwayne Klein. Russ Piriot and Lee Vincent shared the pitching chores for Schaffer with Piriot taking the loss.

Dan Jacques, a Menominee High School basketball star, went the distance on the mound for Menominee against Manistique, allowing just four hits and striking out 14.

Don Charlier went the first four innings for Manistique on the mound and took the loss. Russ King, the winner of the first game against Escanaba, hurled the final five innings, allowing just one run on two hits. Phil Nelson had a home run for Manistique.

In District 12 tourney play at Ishpeming on Saturday, Ishpeming upended Kingsford 7-3, Iron Mountain got by Hancock 4-3 and Ishpeming defeated Negaunee 7-6 in 11 innings. On Sunday Negaunee eliminated Kingsford 9-0, Iron Mountain tripped Marquette 9-4 and Negaunee eliminated Marquette 9-4.

Next Saturday at Ishpeming, Ishpeming will face Iron Mountain and Negaunee will battle Hancock.

Pistulka struck out ten Escanaba batters in picking up the victory while Don Kleinman gave up five hits and struck out six in taking the defeat.

Deacon Jones To Play Again

FULLERTON, Calif. (AP) — David Deacon Jones, All-Pro defensive end who said earlier this year he might retire for a singing career, reported Sunday to the Los Angeles Rams' training camp.

"I just couldn't stay away," the 248-pound veteran said. "There's one thing in football that I haven't accomplished and that's the Super Bowl. We plan to take care of that detail this season."

Iron-Man Perry Registers Double Victory For Twins

By The Associated Press
If the Seattle Pilots had a choice, they'd probably repeal the Saturday night curfew and pass a Blue Law banning Jim Perry on Sundays.

After struggling to a 16-inning standoff against the Pilots Saturday night before an American League curfew rule suspended play, the Minnesota Twins handed Perry a bat and ball Sunday ... and quickly doubled their investment.

Perry pitched two scoreless innings in the resumption of the suspended game and doubled to launch a four-run burst in the 18th that beat Seattle 11-7. Then he started, and finished, the regularly scheduled game, scattering nine hits as the Twins blanked the Pilots 4-0 for a four-game lead in the AL West Division.

The two victories, which gave

Phone 786-2147

The tie stood until the 18th, when Perry lashed a one-out double. Ted Uhlaender beat out an infield single, Rod Carew walked, filling the bases, and Gelnar batted, scoring Perry with the go-ahead run. Chuck Manuel's two-run double and Rick Renick's sacrifice fly capped the rally.

With both pitching staffs depleted during Saturday night's endurance test, Perry and Gelnar also got the starting assignments in the regular game.

LOTS OF STRIKES — Dale Cochran (7), the Escanaba Cubs leftfielder, swings and misses at a Russ King fastball during Saturday morning's game between the Cubs and the Manistique Chiefs at the Al Ness Field in the District 11 American Legion baseball tournament. The Cubs lost the game 6-1 but came back to upend Schaffer 11-3 in a game played Sunday afternoon to remain alive in the event. (Daily Press Photo)

Iverson, Gardiner Record Racing Triumphs Saturday

The largest crowd of the year, 3,905 paid admissions, contributed to the largest purse of the season for stock car drivers Saturday night in Escanaba.

Bob Iverson of Hyde broke out of a driving slump by capturing the modified feature. The hard-charging number one ranked driver took the lead from Harold Brazeau of Canada on the eighth lap and led for the next 12 laps to pick up the victory, his 21st of the year. Jerry Richer of Schaffer finished well back for second place and Brazeau wound up third.

Ed Provo of Escanaba was a double winner in the modified class. In the semi-feature, he

moved from last to first in one lap and outran the remaining cars for his second win of the night and eighth of the year.

Don Benoit of Escanaba was second and Allen Yelle of Gwinn was third.

Provo also took honors in the first heat after taking the lead on a restart on the second lap. Provo won easily over Yelle, who was second, and Benoit finished third.

Jim Barron of Cornell shot into the lead when the green flag dropped and led for all 12 laps to win the second heat. After leading all the way, he just edged Gene Coleman of Menominee at the finish line and Dave Boileau of Escanaba finished third.

Jim Peterson of Kingsford captured third heat honors after moving into first place on the sixth lap when Jerry Richer had to drop out because of car trouble. Ed Powley of Canada was second and Art Richer of Schaffer placed third.

Time trial honors went to Ken Iverson of Escanaba in a time of :19.65.

Feature honors in the sportsmen class went to Duke Gardner of Escanaba.

Two late inning rallies enabled the Michigan Hotel to pick up a pair of victories in Escanaba Softball Association play over the weekend.

On Saturday night, Michigan Hotel used a six-run rally in the seventh inning to get by the Jolly Roger 8-7. Key hits in the rally were doubles by Luke LaPlant and George Peterson and a single by Gordon Nevala.

Harold Porath picked up the victory on the mound and Jug Bourdeau was charged with the defeat.

Sunday at Trenary, Michigan Hotel came up with three runs in the sixth to drop Floyd's Service of Trenary 3-1. Nevala had the big hit in the inning, a double.

Porath again chalked up the victory while Sonny Pasonen took the loss.

Insurance kept its hopes alive for a first place finish in the Escanaba Babe Ruth League by scoring a pair of victories Saturday while the previously unbeaten Teamsters went down to defeat for the first time this season.

Insurance defeated Mead 11-5 in the morning behind the four-hit pitching of Don Davis, who struck out 14 Mead batters. Davis also was three for three in the game at the plate, including two doubles. Jim Mead also had two doubles for Insurance.

The big blast of the game was a long home run over the left centerfield fence off the bat of Mead's Gary Brawley, his second of the year. John Gries had two of Mead's hits.

In the afternoon, Insurance bombed UAW-CIO 15-2 and Dave Schwalbach picked up the win in this game. Schwalbach gave up just two hits, a double by Brian Baum and a single by Bob Smith. Davis had two hits to lead Insurance at the plate.

Mike Dailey of Kiwanis stopped the Teamsters 5-3. Mike Cousineau was charged with the loss for the Teamsters.

Roy White doubled in the 11th and scored from second on Gene Michael's infield hit, sending the Yankee past Washington.

in of Escanaba. He took the lead on the fourth lap from Bill Peterson of Rapid River and was never headed, lapping most of the 15 cars that started the race. Dick Peterson of Rapid River was second, edging Ron Paquette of Kingsford by a couple of car lengths.

In the semi-feature, Ron Dean of Kingsford took over the lead from Elmore Chandler of Gwinn with several laps to go and picked up the victory. Ron Gatten of Spalding then moved in to take second and Bob Bowden of Escanaba was third.

Third heat honors went to Ron Paquette, but not until after another close battle. John Kroll of Wells took the lead on the first lap and battled bumper to bumper with Duke Gardner for eight laps. On the next lap, Paquette got by Gardner and stayed in that position to pick up the checkered flag. Gardiner finished second and Kroll took third.

Dean proved a double winner for the evening by taking honors in the second heat also. He took the lead from Ron Fox of Ford River on the seventh lap and beat him to the finish line. Bill Peterson was a distant third.

Ray Mott of Bark River had an easy time winning the first heat, for his second win of the year. Chandler of Gwinn was several car lengths behind when the checkered flag dropped.

Herb Iverson of Hyde captured sportsmen time trial honors in a time of :23.67.

Horton, Tigers Get Split With Indians

CLEVELAND (AP) — Willie Horton is orbiting spheres again. And his Detroit Tiger teammates sparked with their heads in the clouds until a heart-stopping extra inning brought them back to earth with a thud.

Horton slammed an eighth-inning homer in the opener to give Detroit a 3-2 victory against Cleveland Sunday.

Horton, bothered by a hitting slump in the first half of the season, started the nightcap with a three-run blast. But Cleveland fought back, earning a 5-4 win in the 10th inning that snapped Detroit's win streak at five.

So, with the break for the All-Star game Tuesday, the Tigers find themselves in third place in the American League's East Division, one-half game behind Boston and 1½ behind Baltimore.

On Thursday, the Tigers meet Kansas City at Detroit in a campaign against Western Division teams that continues until Sept. 4 when Detroit meets its top foe—Baltimore.

Both games Sunday were cliff-hangers, with Cleveland's threat in the bottom of the ninth in the opener foiled by veteran reliever Don McMahon. In the second game, a bizarre bases-loaded force play in the 10th gave the Indians the victory.

In the opener, Horton slammed his 13th homer of the season off Indian reliever Stan Williams in the eighth after Detroit tied the game 2-2 in the seventh on a bases-loaded double by Tom Tresh.

Tresh's hit brought in Dick Tracewski and Ike Brown, who came in to pinch-hit for pitcher Mickey Lolich.

Fred Lasher, who took the seventh, picked up his first victory of the season.

Cleveland scored its two runs on a double by Larry Brown and a single by Eddie Leon in the first inning in which Lolich also walked three.

Cleveland scored its two runs on a double by Larry Brown and a single by Eddie Leon in the first inning in which Lolich also walked three.

In the bottom of the ninth, McMahon was called in to relieve Lasher, with one man on. McMahon gave up two walks, leading the bases, but then struck out Tony Horton to give Detroit the victory.

It was a similar situation in the nightcap.

With one out and the bases jammed and the score tied 4-4 in the 10th inning, Detroit center fielder Jim Northrup trapped Chuck Hinton's looping drive on one hop and fired the ball toward the plate.

The runners had held up to determine if the ball would be caught on the fly, but Jose Cardenal raced home when first baseman Norm Cash cut off Northrup's throw and tossed to third for a force on Russ Snyder.

The force out deprived Hinton of a base hit.

Rich Scheinblum's first major league homer—a pinch hit wallop in the seventh—lifted the Indians into a 4-4 tie.

Detroit had gone ahead on the seventh on Bill Freehan's RBI double.

After Horton's three-run homer in the first, the Indians came back with one run in the fourth and in the sixth got a two-run homer from Tony Horton.

Detroit starter Earl Wilson was taken out in the sixth, with Tom Timmerman, Daryl Patterson, and Don McMahon coming in through the ninth. Jose Sparmma came in in the 10th to end up as the losing pitcher.

Horacio Pina was the winning hurler.

Horton said, "The second home run was the hardest hit but I liked the first one better. It won the game for us. That's what counts."

Horton said, "The second home run was the hardest hit but I liked the first one better. It won the game for us. That's what counts."

HI AND LOIS

DO YOU REMEMBER WHEN DOT SAT THERE LOOKING EXACTLY LIKE TRIxie?

YES...WASN'T IT ONLY LAST WEEK?

DARN! AND I MISSED IT!

I WISH SHE'D DO IT AGAIN

ANDY CAPP

FLO! DASH DOWN T' THE BETTIN' SHOP AN PUT THISTEN LURRY, THERE'S ONLY A MINUTE TO THE OFF!

COME ON SWIFTY! COME ON SWIFTY! COME -

OH, NO!

DID YER GET IT ON?

YES PET, I JUST MADE IT

YOU WOULD!

PEANUTS

IT'S GETTING DARK, BIG BROTHER... WHY ARE YOU STANDING HERE STARING AT THAT EMPTY HOUSE?

SHE MOVED AWAY, AND I DIDN'T SAY GOODBYE... I DIDN'T SAY HELLO, AND I DIDN'T SAY GOODBYE... I DIDN'T SAY ANYTHING...

WHY DON'T YOU COME HOME, BIG BROTHER, AND I'LL FIX YOU A NICE DISH OF PUDDING...

THAT'S JUST WHAT I DESERVE... A NICE DISH OF BLAH, WISHY-WASHY PUDDING!

LITL ABNER

??-MIA-P-I'M NEW HERE. I DON'T KNOW ANY GIRL NAMED -

CHUCKLE- THAT'S WHAT WE CALL 'M-ONE-A'!!

OH!! SHE'S -

THE NEW ONE!!

PSST!- THEY SAY SHE'S WORTH A BILLION!!

MAYBE MORE!!

MARK TRAIL

ANSWER ME, JOE... WHERE DID YOU THROW AWAY THE PLAID CASE...WHERE?

OH, MAN...THAT BAG'S SOMEWHERE AT THE BOTTOM OF A LAKE!

SHUMPLACE IN BIG LAKE...MAYBE...THAT'S ALL I KNOW!

STEVE CANTON

THE DESERT PILOTS DEPUTIZED BY THE SHERIFF TO HUNT FOR THE TWO CAR THIEVES - JOIN THE CIVIL AIR PATROL, FLIERS BRINGING FUEL TO BITSY AND POTEET AND TO HELP HUNT FOR A DOWNED PLANE

AND THE 'BUBONIC PLAGUE' EPIDEMIC IS OVER...

WHO WON THE POWDER PUFF DERBY?

WE WEREN'T BRINGING THAT UP - WHEN WE LEARNED MISS BEEKMAN LEFT THE RACE FOR A FALLS MAYDAY!

IT WAS WON BY MARY CULP OF NEWPORT BEACH, CALIFORNIA!

GEE - I... DIDN'T MEAN TO...

OF COURSE YOU DIDN'T... JUST LET HER HAVE HER CRY...

MARY WORTH

BY CHANCE, ANITA HAS JUST RECAST... WHICH INCLUDED AN ITEM ABOUT A HIT-RUN ACCIDENT...

...ALTHOUGH IN CRITICAL CONDITION AT MERCY HOSPITAL, THE BOY, JORJE OLVERO, 14, WAS ABLE TO DESCRIBE THE CAR!

POLICE ARE LOOKING FOR A SMALL BLUE 'MARMOT'... LICENSE 'F' FOLLOWED BY ONE DIGIT!

ANITA... DID YOU KNOW THE VICTIM? ...YOU'RE AS WHITE AS...

NO... BUT THAT CAR... THE FINCASTLES OWN A FLEET OF BLUE 'MARMOTS'... WITH LOW LICENSE NUMBERS... ALL STARTING WITH 'F'!

BETTY BAILEY

BEETLE, DON'T YOU GET TIRED OF HEARING YOURSELF CALLED A LAZY GOOF-OFF?

SURE

THEN DO SOMETHING ABOUT IT

EAR STOPPERS?

BLONDIE

DAGWOOD, YOU PROMISED YOU'D STRAIGHTEN OUT YOUR THINGS IN THE HALL CLOSET

I'LL DO IT TOMORROW... I PROMISED HERB I'D GO BOWLING WITH HIM TONIGHT

SHE'S RIGHT... I'VE GOT TO GET ON THAT CLOSET RIGHT AWAY

Gulliver Lake Yields 32-Inch 'Tiger' Muskie

BY LELAND R. ANDERSON
District Fish Biologist

Weatherwise our days have been warm and humid but evenings cool and balmy. Skies have clouded on occasion and thunder storms are threatening but so far 'tis but the weatherman's procrastinations.

Horde of mosquitoes and "no-see-ums" are prevalent, especially during the waning hours of the day. Campers and fishermen not immune should be prepared to do battle.

Inland lake and streams are still high but receding.

Lake Trout
Schools of lake trout have been observed in shoal waters off Manistique and Pendarvis Creek but are reluctant to bite. Some lake trout being taken by trolling off Grand Marais and Pendarvis but fish are moving out into deeper water. Early morning trolling with silver or silver and blue spoons bring best results. Bobbers are having fair success with fresh smelt. Lake trout have also been observed in shoal waters off Manistique and Pendarvis in Lake Michigan.

Coho
A few large coho have been caught off Pendarvis Creek, but success has been better off Grand Marais.

Rainbow Trout
Some rainbows are being caught by trolling in Emerson Bay, off Pendarvis and Halfday Creeks and off Grand Marais in Lake Superior. Clear and Bear Lake, Schoolcraft County are producing good catches. These fish are taken on night crawlers and cowbells either by trolling or drift fishing. Some fish are taken from Highbanks and Soldier Lake, Chippewa County. A couple rainbow were reported (not verified) from McDonald Lake, Schoolcraft County.

Brook Trout
Fishing pressure has been light on streams, probably due to the swarms of mosquitoes and no-see-ums that are present. Some good catches have been reported from the East Branch Tahquamenon and Carp Rivers and Grants and Biscuit Creeks, Chippewa County; good catches were reported from the lower Sucker River, Alger County; Little Two Hearted River and Peanut Lake, Luce County; Fox River System, Schoolcraft County. Cleo Gehrett of Curtis caught an 18" fish there.

Walleye
Fishing has been exceptionally spotty. Some fish being taken in Lower St. Marys River, Chippewa County; Whitefish and Manistique Lakes.

Smallmouth Bass
Caribou Lake and Potagan-nissank Bay, Chippewa County; Milakakia Lake, Mackinac County; Indian Lake, Schoolcraft County.

Muskellunge
A 32" fish was landed at Gulliver Lake, Schoolcraft County. This is one of 260 fingerlings planted here in 1966. It is likely that more fish will reach the 30" legal size class this summer and come into the catch. Several "Tiger" muskies (cross between the musky and northern pike) in the 24-28" class have been reported from Caribou Lake, Chippewa County and Stuart Lake, Luce County. These fish should reach the 30" class later this summer also.

Carp
Are being noted in the "shallow" along northern Lake Michigan in the vicinity of Brevort and Nubinway. Some fish are noted in lower Brevort and Millicoquin Lake, Munisong Bay, Chippewa County has a good population of carp.

Public Hearing On Assessment

A Public Hearing has been scheduled for July 31 on the creation of special assessment districts for new curb and gutter installations in the city.

The curb and gutter program is in conjunction with a \$30,000 street improvement program recently approved by the city.

During a special meeting Friday afternoon city councilmen approved the creation of special assessment districts to finance the curb and gutter installations. Mayor Leo DeMars, who voted against the establishment of an ordinance to create the special assessment project, as required by charter, reversed his stand and voted in favor of the project.

Bids will be let for the curbing, city manager Robert Noe said, and one contractor has already indicated an interest in the work.

Individual property owners will be assessed at cost depending on the size of their lots. Preliminary estimates are based on a cost of \$3.50 per foot.

The Public Hearing, where council will hear any objections to the project, will be held at 7:30 p. m. July 31 at the City Hall.

Briefly Told

The Schoolcraft County Historical Post House will be open every afternoon, Monday through Saturday, from 2 to 5 p. m., Mrs. J. Joseph Herbert has announced. The Post House is located on Cedar St. next to the Malt Shop.

Andrew S. Sikorski, Muskegon, was ticketed for speeding and Robert L. Kallin, Grafton, Mass., for non-stop by Michigan State Police on Friday.

The breaking and entering of an abandoned farm owned by William Parzela of Garden is under investigation by State Police. The property is located on the Little Harbor Road, three and one-half miles north of Garden.

Grocery stores carried some 867 items in 1968, compared with 7,350 in 1967 and a predicted 10,000 by 1970.

MANISTIQUE

Mrs. Donald E. Lloyd

Kathleen Ann Derwin Bride Of Donald Lloyd

Kathleen Ann Derwin became the bride of Donald Eugene Lloyd in a ceremony performed in the St. Francis de Sales Church on Saturday, July 12 at one o'clock.

Father Arnold Grambow officiated during the double-ring rite which united the daughter of Mr. and Mrs. Ernest Derwin Jr., 351 Oak St., and the son of Mr. and Mrs. Vernon H. Lloyd Sr., of Germfask.

The bride chose a full length white lace tiered gown for her marriage. The long - sleeved dress was highlighted with a scalloped neckline encrusted with seed pearls and french sequins. Her elbow length veil was of bouffant nylon illusion with a petit crown and ornamented with pearls, crystals and sequins touched with lace.

She carried a lace covered white Bible entwined with roses, ivy and stephanotis.

Aqua Mist Gowns
Patricia Lee Peterson was maid of honor with Dorothy Lloyd, sister-in-law of the bridegroom. Joy Ann Lloyd, sister of the bridegroom, attending the bride. Tina Derwin served as her sister's junior bridesmaid.

The attendants wore acetate nylon lace gowns of pale aqua mist. Their taffeta lined dresses featured shoulder bows and empire waists. They carried bouquets of orange mums and glads. Terry Derwin was her sister's flower girl and wore a replica of the bridal gown.

Vernon H. Lloyd Jr. attended his brother as best man with the bride's brother, Tom Derwin, as groomsmen. Guests were seated by John Ketola, Guy Livermore, and Robert Crocker.

Ms. Derwin attended her daughter's wedding in a two-piece blue lace-over-taffeta ensemble with white accessories. Mrs. Lloyd chose a black and white print costume of nylon - over - taffeta with white accessories.

Reception
A reception for 200 guests was held following the ceremony at the Knights of Columbus Hall. The serving table featured a four tiered wedding cake decorated with bells and aqua roses.

The new Mrs. Lloyd is a graduate of Manistique High School, attended Automation Institute and is employed in Ann Arbor. Her husband is a Manistique High School graduate and employed by Kram Electric in Detroit. The couple will make their home at 723 S. Main St., Ann Arbor.

Man Injured In 3-Car Accident
A three - car accident Thursday at 8:55 p. m. sent one motorist to the hospital, troopers of the Manistique Post report. An auto driven by James R. Knight, 35, St. Clair Shores, struck a farm tractor being towed by Steve Zellar, 22, of Germfask. The Knight vehicle and tractor both veered across the centerline and struck an oncoming auto driven by Janet Faye Meadows, 34, Livonia.

The mishap occurred on M-77 in Germfask Township, just north of county road 447.

Knight was taken to the Schoolcraft Memorial Hospital by Public Safety ambulance for treatment of lacerations of the face. He was ticketed for violation of the basic speed law, troopers said, while Zellar was cited for illegal towing.

Both the Knight and Meadows vehicles were towed from the scene.

State Police also report a car - truck accident which occurred at 1:05 a. m. Saturday on U. S. 2 in Garden Township, Delta County.

Kenneth E. Porter, 40, Don Mills, Ont., told troopers he swerved his truck - trailer to avoid hitting a dog and hit an oncoming automobile driven by David D. Watchorn, 20, Escanaba. The Watchorn vehicle was pulling a trailer which jackknifed after the accident.

Porter was cited for violation of the basic speed law. No personal injuries were reported.

According to a prediction of the American Bottled Water Assn., the nation will be spending some \$95 million annually on bottled water by 1970.

NOTICE TO BIDDERS

Notice is hereby given that the City of Manistique will accept bids for the installation and construction of curb and gutter according to specifications on file at City Hall on the following streets:

On North Houghton Avenue from Deer Street to Wolf Street;	
On North Houghton Avenue from Wolf Street to Railroad Crossing;	
On Arbutus Avenue from Range Street to Steuben Street;	
On Maple Avenue from U.S. 2 corner to V.F.W. building.	
On Main Street from Cedar Street to Pearl Street.	

Bids will be accepted until 7:00 P.M. on July 28, 1969 at City Hall.

Robert L. Noe, City Manager
City of Manistique
Manistique, Michigan

NOTICE TO BIDDERS

Manistique Area Schools will accept firm bids until 4:00 p. m., August 8, 1969, on the following Workmen's Compensation coverages:

Code	Estimated Payroll
8868	\$700,000
9101	\$160,000

Manistique Area Schools reserves the right to reject any or all bids and will be guided in its choice by the best interests of the school district.

Dave Hill Wins Philly Classic

PHILADELPHIA — (AP) — Dave Hill had just taken the \$30,000 first prize in the Philadelphia Golf Classic but said he really hadn't won it, really didn't want to and really didn't much care.

"This tournament was more lost than won," the slim perfectionist from Jackson, Mich., said. "Tommy Jacobs and Grier Jones lost it. I didn't win any golf tournament. They lost it. It's a shame for Tommy to lose. He played four shots better than I did. My sympathies were with him. I wanted him to win it. And I didn't want to win with the score I had."

"I don't much care about winning. I care about winning. I care about playing well. Winning just comes from playing good. I don't care if I win one tournament or a thousand, just let me play."

Hill, 32, a pro since 1959, beat Jacobs, R. H. Sikes and Grier Jones in a four way playoff on the first extra hole Sunday. His 11-foot birdie putt clinched his third victory of the season.

And it was his third triumph in his last four starts, put him in the top spot on the money winning list at \$129,333 and clinched him a spot on the Ryder Cup team.

Hill shot a final-round 69, three under par on the 6,670-yard Whitemarsh Country Club course, and was tied with 72 holes at 279 with Jacobs, Sikes and Brewer.

Jacobs, who shared the third-round lead and is on a comeback from three bad years that almost forced him off the tour, had a 72. Brewer a 66, including an eagle on the 17th hole, and Sikes a 67.

Frank Beard had a 66 and was alone at 280. Tied at 281

McLain To Get Starting Call

WASHINGTON (AP) — Denny McLain of the Detroit Tigers and Steve Carlton of the St. Louis Cardinals will be the opposing pitchers in Tuesday night's all-star game in the nation's capital, it was announced today.

The managers of the American and National League all-star teams, Mayo Smith of Detroit and Red Schoendienst of St. Louis, each chose his own outstanding pitcher as the starter.

The game Tuesday night will mark baseball's 100th anniversary and will be viewed by President Nixon.

The managers also announced their starting lineups and batting orders at a news conference.

They are:
National League—Matty Alou, Pittsburgh, centerfield, batting .354; Don Kessinger of Chicago, shortstop, .298; Hank Aaron of Atlanta, right field, .327; Willie McCovey of San Francisco, first base, .325; Ron Santo of Chicago, third base, .295; Cleon Jones of New York, left field, .341; Johnny Bench of Cincinnati, catcher, .317; Felix Millan, Atlanta, second base, .274, and Carlton, whose record is 12 victories against five defeats.

American League — Rod Carew of Minnesota, second base, .364; Reggie Jackson, Oakland, centerfield, .287; Frank Robinson of Baltimore, right field, .329; Boog Powell of Baltimore, first base, .299; Frank Howard of Washington, left field, .313; Sal Bando of Oakland, third base, .294; Rico Petrocelli of Boston, shortstop, .309; Bill Freehan of Detroit, catcher, .249 and McLain, whose record is 14-5.

White House Sets Up Ombudsman

WASHINGTON (AP) — The White House, trying to cool its sometimes hot and jangled circuits to Capitol Hill, has set up an ombudsman operation to hear Republican Congress members' complaints and make them feel wanted.

"This makes it plain to them we're trying to be accessible," says the ombudsman, Bryce Harlow, President Nixon's chief liaison man with Congress.

The ombudsman operation—an idea imported from Europe—usually is intended to help the average citizens who have trouble with government.

In this case it is to help Capitol Hill Republicans who have fussed that they are having problems getting in touch with the executive officials.

New Fullback

WESTMINSTER, Md. (AP) — The Baltimore Colts announced Sunday that John Mackey, an All-National Football League tight end for the past three seasons, will be given a trial at fullback.

Earl Morrall of the Baltimore Colts led NFL passers last season with 26 touchdown passes.

were Jones, who shared the third-round lead with Jacobs and finished with a 74; Mac McLendon, 68; Bruce Devlin, 65; Lou Graham, 70, and Deane Beman, 70.

Arnold Palmer had a 71 for 286 and was tied at that figure with Billy Casper, 68. Lee Trevino had a 69 for 285.

Sikes and Brewer were in the clubhouse at 279 when Hill and Jacobs came to the 18th, Hill needing a par and Jacobs a bird for a share of the lead.

Hill put his tee shot in a trap and Jacobs in the deep rough. Tommy recovered with a beautiful six iron shot to within two feet and canned the putt.

But Hill buried his second shot in another trap, then blasted out five feet away and made it, putting cross-handed.

"I'd just had two big breaks coming out of those traps and I knew if I didn't make that putt I've got no guts at all," he said. On the first extra hole, Sikes left a 20-foot birdie putt an inch short and Jacobs chipped past the hole before Hill ran in his winning putt. Brewer missed on a 10-foot attempt and it was over.

"I thought for sure it would take a 66 or 67 to win it. I'd have been happy with that," Hill said. "It's a shame for Jacobs to lose. But it's his best finish in some time and I'm pleased for him about that."

He paused a moment then "The Good Lord has given me more ability to play this game than any other man alive. You've got to thank God for what he's given you. He gave me a ton of ability."

But then Hill, a reformed bad boy of the pro tour who refuses to take himself too seriously, noted his position a top the money list and on the Ryder Cup team and started joking.

"When they see me leading the money list, why it's just gonna make some of those cats sick," he said. "I can think of about 15 of them that's just gonna cut their throats."
"And of" Dave is on the Ryder Cup team. I might get England back 40 years. They're gonna send two special guards along with me just to see I don't get in trouble."

STRIKEOUTS — Jenkins, Chicago 168; Gibson, St. Louis 159.

Giants Obtain Veteran Plu

FAIRFIELD, Conn. (AP) — The New York football Giants had a new quarterback today, veteran Milt Plum.

Plum was obtained by the Giants Sunday from the Los Angeles Rams. The Giants gave up a future draft choice for Plum, who sparkled for the Cleveland Browns for several years.

Plum led the National Football League in passing in 1960 and 1961 while with the Browns. He is the only player in NFL history to win two passing titles in succession.

Fran Tarkenton is the Giants' first team quarterback. Behind Tarkenton is Gary Wood.

LEGAL NOTICES

ORDINANCE NO. 533
AN ORDINANCE TO AMEND ORDINANCE NO. 65 ENTITLED "A ORDINANCE TO REGULATE AND RESTRICT THE LOCATION OF BUILDINGS DESIGNED FOR SPECIFIED USES; TO REGULATE THE HEIGHT AND BULK OF BUILDINGS HERE-AFTER ERRECTED; TO REGULATE AND DETERMINE THE AREA OF YARDS, COURTS, AND OTHER OPEN SPACES; TO LIMIT AND RESTRICT THE MAXIMUM NUMBER OF FAMILIES WHICH MAY BE HOUSED IN DWELLINGS HEREAFTER ERRECTED OR STRUCTURALLY ALTERED; AND TO PRESCRIBE THE PENALTIES FOR THE VIOLATION OF ITS PROVISIONS", AND ANY AMENDMENTS THERETO.

The City of Escanaba Ordains: CHAPTER I Section 101. The Zoning Map referred to in Section II-A shall be amended by changing the following described parcels of land from "Light Manufacturing" to "Commercial".

Area of Blocks 7 and 9 and Lots 13 and 24 of Block 8 of City Center Addition No. 3.

CHAPTER II Section 201. If any section, subsection, sentence, clause or phrase of this ordinance is, for any reason, held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this ordinance. The City Council hereby certifies that it would have passed this ordinance, and each section, subsection, sentence, clause or phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared unconstitutional.

CHAPTER III Section 401. If any section, subsection, sentence, clause or phrase of this ordinance is, for any reason, held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this ordinance. The City Council hereby certifies that it would have passed this ordinance, and each section, subsection, sentence, clause or phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared unconstitutional.

CHAPTER IV Section 501. A majority of the Board of Equalization and Review shall constitute a quorum for the transaction of business, but a less number may adjourn from day to day and a majority vote of those present shall decide all questions.

CHAPTER V Section 601. A majority of the Board of Equalization and Review shall constitute a quorum for the transaction of business, but a less number may adjourn from day to day and a majority vote of those present shall decide all questions.

CHAPTER VI Section 701. A majority of the Board of Equalization and Review shall constitute a quorum for the transaction of business, but a less number may adjourn from day to day and a majority vote of those present shall decide all questions.

CHAPTER VII Section 801. A majority of the Board of Equalization and Review shall constitute a quorum for the transaction of business, but a less number may adjourn from day to day and a majority vote of those present shall decide all questions.

CHAPTER VIII Section 901. A majority of the Board of Equalization and Review shall constitute a quorum for the transaction of business, but a less number may adjourn from day to day and a majority vote of those present shall decide all questions.

CHAPTER IX Section 1001. A majority of the Board of Equalization and Review shall constitute a quorum for the transaction of business, but a less number may adjourn from day to day and a majority vote of those present shall decide all questions.

CHAPTER X Section 1101. A majority of the Board of Equalization and Review shall constitute a quorum for the transaction of business, but a less number may adjourn from day to day and a majority vote of those present shall decide all questions.

CHAPTER XI Section 1201. A majority of the Board of Equalization and Review shall constitute a quorum for the transaction of business, but a less number may adjourn from day to day and a majority vote of those present shall decide all questions.

CHAPTER XII Section 1301. A majority of the Board of Equalization and Review shall constitute a quorum for the transaction of business, but a less number may adjourn from day to day and a majority vote of those present shall decide all questions.

CHAPTER XIII Section 1401. A majority of the Board of Equalization and Review shall constitute a quorum for the transaction of business, but a less number may adjourn from day to day and a majority vote of those present shall decide all questions.

CHAPTER XIV Section 1501. A majority of the Board of Equalization and Review shall constitute a quorum for the transaction of business, but a less number may adjourn from day to day and a majority vote of those present shall decide all questions.

CHAPTER XV Section 1601. A majority of the Board of Equalization and Review shall constitute a quorum for the transaction of business, but a less number may adjourn from day to day and a majority vote of those present shall decide all questions.

CHAPTER XVI Section 1701. A majority of the Board of Equalization and Review shall constitute a quorum for the transaction of business, but a less number may adjourn from day to day and a majority vote of those present shall decide all questions.
